

TARGA NGL PIPELINE COMPANY LLC

NOTICE OF OPEN SEASON

June 15, 2018

Targa NGL Pipeline Company LLC (“Carrier”) is conducting an open season commencing on June 15, 2018 and closing on July 6, 2018 (the “Open Season”) to gauge shipper interest in committed natural gas liquids (“NGLs”) interstate transportation service on a pipeline that Carrier is developing through a combination of newly constructed and leased capacity that will provide service from natural gas processing facilities in Coal and Hughes Counties, Oklahoma to the NGL storage, fractionation, and marketing hub at Mont Belvieu, Texas (the “Project”). Carrier is considering developing and placing the Project into service to an initial interim destination, at an interconnection with a third party pipeline in Oklahoma with connections to Mont Belvieu, in the third quarter of 2018, with full service on the Project to Mont Belvieu, Texas, expected to commence in the spring of 2019.

Carrier hereby announces this open season that will provide an opportunity for shippers to support the Project by making an NGL plant production dedication, thereby becoming “Committed Shippers” for the term of their transportation service agreements (“TSAs”). The final volume of capacity for both committed and uncommitted service on the Project, as well as final origin points for service, will be determined by Carrier in part based on the results of this open season.

During the term of their commitments, Committed Shippers may choose to elect “Priority Service” that will not be subject to prorationing in the ordinary course for a quantity up to the Committed Shipper’s deemed volume commitment based on its plant production dedication.

Open Season Process

Bona fide potential shippers that desire to receive copies of the open season documents, including the form of TSA, are required to execute a Non-Disclosure Agreement in the form attached as Schedule 1 (the “NDA”).
