

# Targa Resources Corp.

Morgan Stanley Global Energy and Power Conference Investor Presentation March 2023

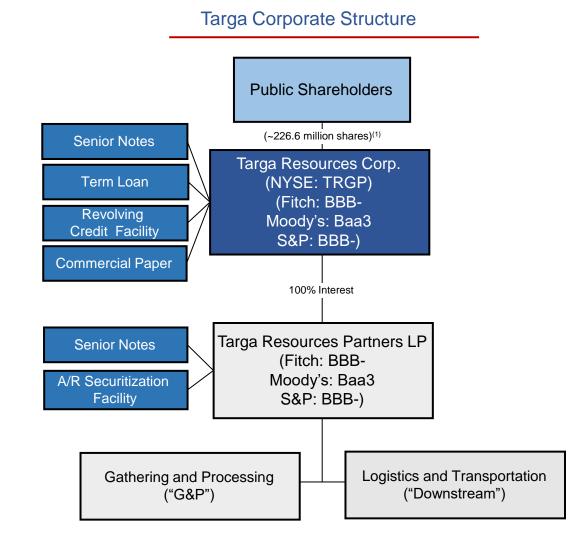

# Forward Looking Statements and Corporate Structure

Certain statements in this presentation are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this release that address activities, events or developments that the Company expects, believes or anticipates will or may occur in the future, are forward-looking statements.

These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of uncertainties, factors and risks, many of which are outside the Company's control, which could cause results to differ materially from those expected by management of the Company. Such risks and uncertainties include, but are not limited to, weather, political, economic and market conditions, including a decline in the price and market demand for natural gas, natural gas liquids and crude oil, the impact of pandemics or any other public health crises, commodity price volatility due to ongoing or new global conflicts, actions by the Organization of the Petroleum Exporting Countries ("OPEC") and non-OPEC oil producing countries, the timing and success of business development efforts, and other uncertainties.

These and other applicable uncertainties, factors and risks are described more fully in the Company's filings with the Securities and Exchange Commission, including its most recent Annual Report on Form 10-K, and any subsequently filed Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. The Company does not undertake an obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

### **Targa's Unique Investment Proposition**

#### (I) Growing EBITDA, (II) Increasing Dividend, (III) Reducing Share Count

Valuable infrastructure assets backed by primarily fee-based contracts

Significant adjusted EBITDA growth expected YoY and long-term

Strong, flexible, investment grade balance sheet

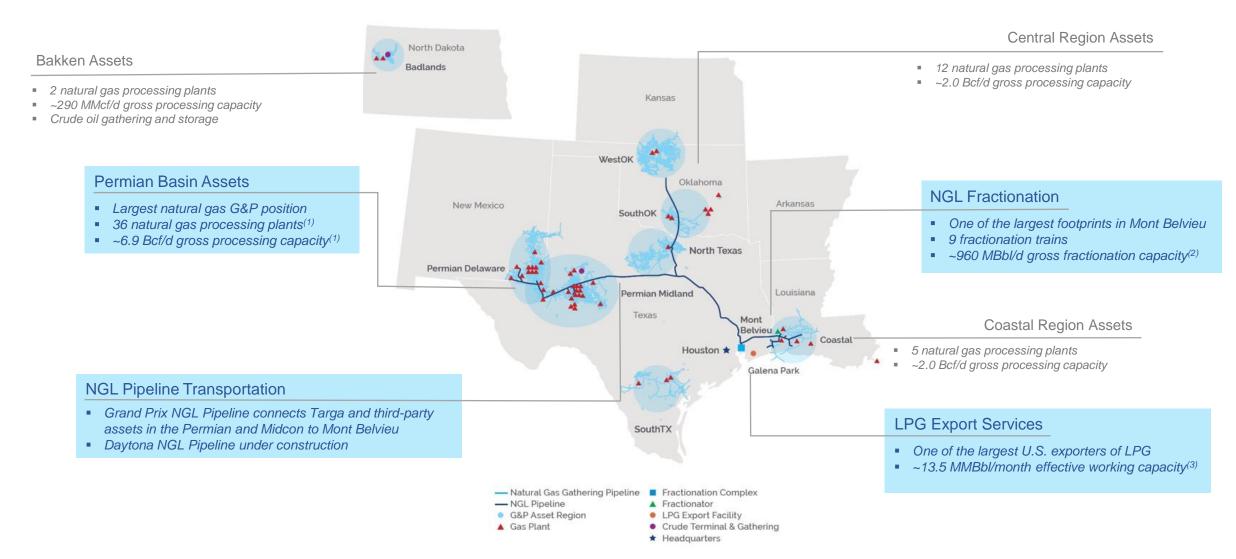

Increasing return of capital to shareholders expected YoY and long-term

C-corp recently added to the S&P 500

# Targa is a Leading Infrastructure Company

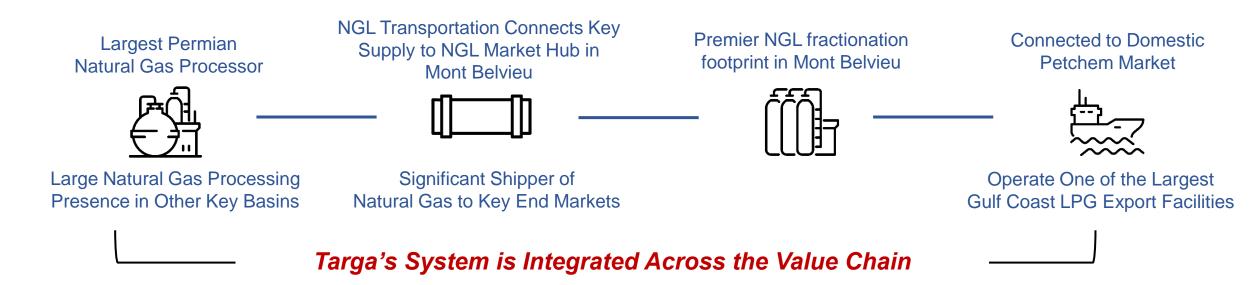

- (1) Includes announced Permian Midland and Permian Delaware plant additions currently underway and the expected idling of the Sand Hills plant.
- 2) Includes 40 MBbl/d of back-end capacity, Train 9 scheduled to be completed in Q2 2024, and does not include Targa's equity interest in GCF.
- Export facility has an effective working capacity of 13.5 MMBbl/month, inclusive of 1MMbbl/month capacity expansion underway. This capability is dependent on the mix of propane and butane demand, vessel size and availability of supply, among other factors.

### Targa's System – Integrated NGL Solution

Targa's Assets are
Positioned for
Long-Term Success

**Growing Permian Basin Production** 

Increasing U.S. Exports of Natural Gas and LPGs

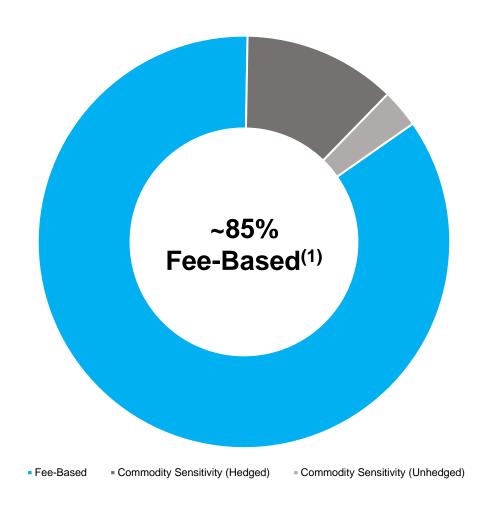

Investing in High-Return Projects That Leverage Integrated System

targaresources.com NYSE TRGP

### Targa's Margin is Predominantly Fee-Based

Durable earnings from significant fee-based margin, fee-floors, and disciplined hedging program

#### **Hedging Program**

- Targa's G&P business is predominantly backed by fee-based contracts
- Hedges provide cash flow stability and reduce exposure to commodity prices on non fee-based G&P contract exposure
- Significant fee-floor contracts in place, reducing downside and preserving upside

		2023	2	2024			
Fixed Price Swaps	Volumes Hedged	Wtd. Avg. Hedge Price	Volumes Hedged	Wtd. Avg. Hedge Price			
Natural Gas (MMBtu/d; \$/MMBtu)	175,687	\$3.30	105,377	\$3.01			
Wtd Avg NGL (Bbl/d; \$/Gal) <sup>(2)</sup>	43,115	\$0.68	21,134	\$0.66			
WTI Crude Oil (Bbl/d; \$/Bbl)	6,427	\$70.64	3,232	\$72.61			

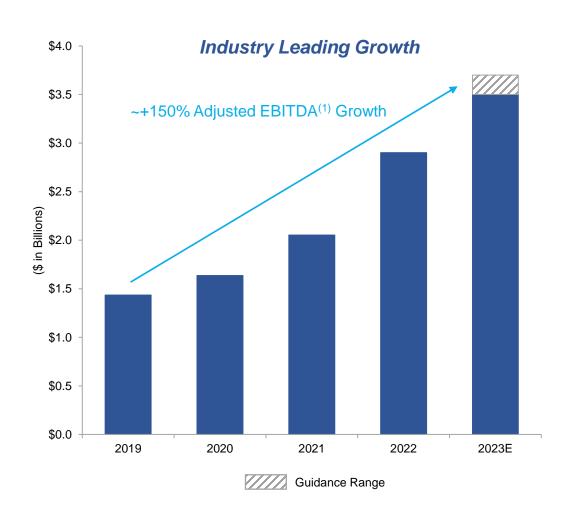

NYSE TRGP

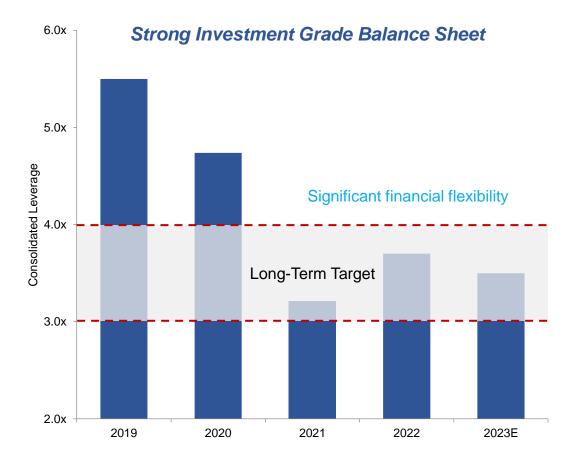

<sup>)</sup> Fee-based profile based on fully consolidated 2023E adjusted operating margin.

# Significant EBITDA Growth and Balance Sheet Strength

Maintaining balance sheet strength and financial flexibility over the long-term remain a key priority

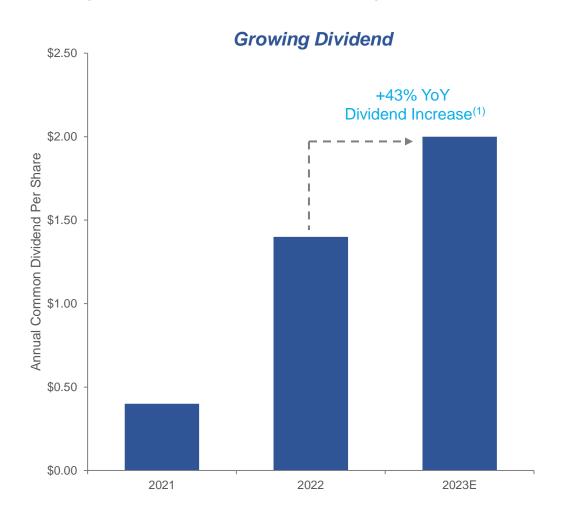

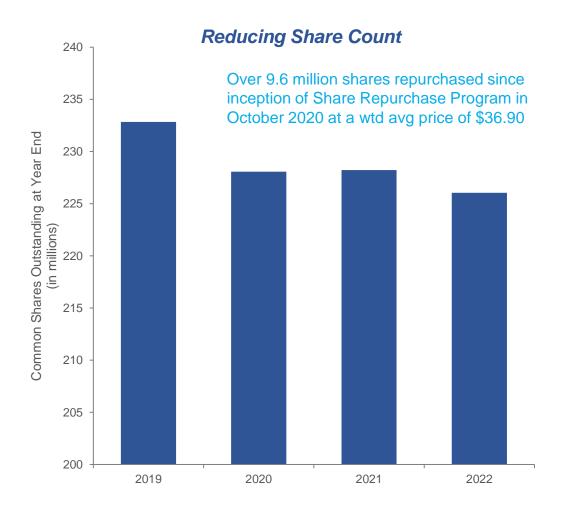

### Increasing Return of Capital to Shareholders

#### Returning capital to shareholders through annual common dividend increases and share repurchases

# Investing in Attractive Projects Driven by Permian Volume Growth

2023e growth capex of \$1.8 – 1.9 billion across the business expected to drive strong returns and compelling ROIC

#### **Projects under Construction**

**Gathering & Processing** 

**NGL** Transportation

**NGL Fractionation** 

**LPG Export** 

- 5 gas processing plants under construction in the Permian (adding +1.2 bcf/d of capacity)
- Permian Midland
   Legacy II Plant 2Q23
   Greenwood Plant 4Q23
- Permian Delaware
   Midway Plant 2Q23
   Wildcat II Plant 1Q24
   Roadrunner II Plant 2Q24
- Mix of fee-based and percent-ofproceeds (POP) contracts with fee floors

- Daytona NGL Pipeline under construction to support growth in NGLs from Targa's Permian G&P position and third parties
- In-service end of 2024
- Long-term fee-based contracts
- Train 9 fractionator at Mont Belvieu under construction to support growth in NGLs from Targa's Permian G&P position and third parties
- In-service 2Q24
- Long-term fee-based contracts

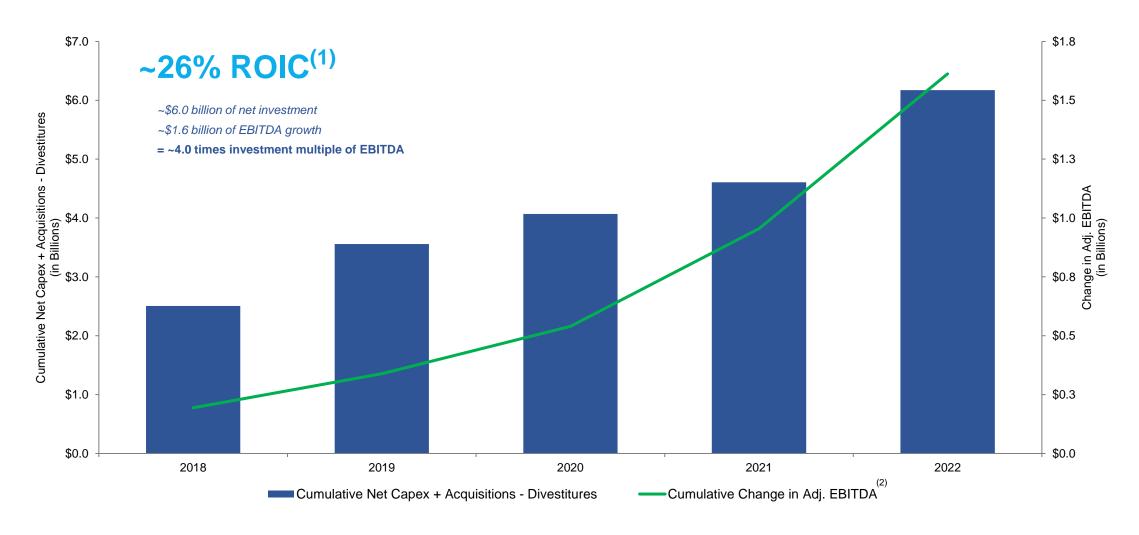

- LPG export expansion under construction, adding an incremental 1 MM bbls/month of capacity
- In-service mid-2023
- Long-term fee-based contracts

### **Strategic**

#### **Commercial**

#### **Financial**

- Invested in attractive, highreturning organic growth opportunities
- Completed Delaware Basin acquisition, increasing Permian size, scale and fee-based margin
- ✓ Completed bolt-on acquisition in South Texas
- Issued fourth annual Sustainability Report

- ✓ Record Permian inlet gas volumes
- Record NGL pipeline transportation and fractionation volumes
- Continued commercial success across asset footprint
- Safely completed Legacy and Red Hills VI plants ahead of schedule and on budget

- Record net income and adjusted EBITDA
- Strong balance sheet with significant financial flexibility
- Increased YoY capital returned to shareholders
  - Higher common dividend
  - Repurchased \$225 million of common shares

### **2023 – Targa Momentum Continues**

Integrated NGL business and strong business fundamentals expected to drive increasing cash flow outlook

- Continued Permian natural gas growth supported by three Targa plants expected to come online in 2023
  - Adding an incremental 660 MMcf/d gas processing capacity, driving significant incremental volumes through Targa's L&T assets
- System volume growth underpins adjusted EBITDA growth YoY and beyond
- Increasing YoY return of capital to shareholders via expected higher common dividend
  - Opportunistic common share repurchase program also in place
- Maintaining strong balance sheet bolsters financial flexibility

<sup>(1)</sup> Adjusted EBITDA is a non-GAAP measure. Please see the section of this presentation entitled "Non-GAAP Financial Measures" for a discussion of adjusted EBITDA and a reconciliation of such measure to its most directly comparable GAAP financial measure. Year over year increase based on the midpoint of estimated 2023 adjusted EBITDA range.

Permian volume growth based on projected average full year 2023 Permian inlet volumes versus average 4Q22 volumes.

 <sup>(3)</sup> Targa's composite NGL barrel comprises 45% ethane, 31% propane,11% normal butane, 4% isobutane and 9% natural gasoline.
 (4) Commodity price sensitivity for 2023 inclusive of a number of factors, including unhedged exposure, fee floor arrangements and any associated fee floor hedges, NGL barrel

# Targa's Integrated Infrastructure Supported by Strong Fundamentals

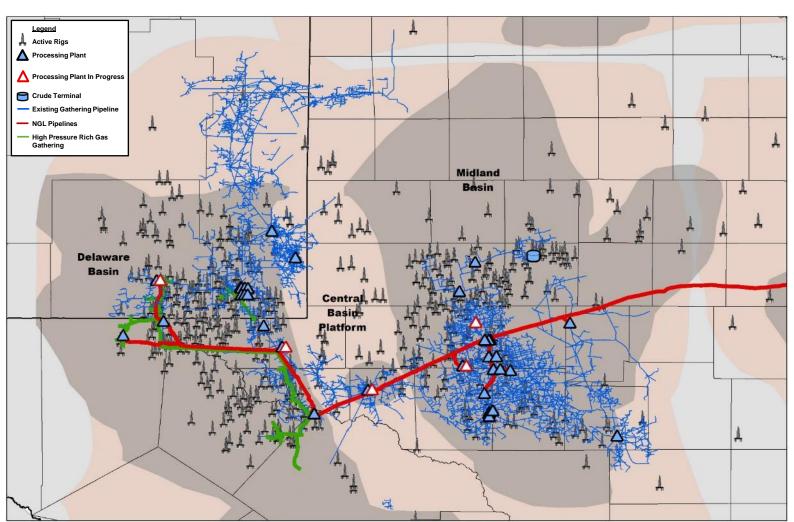

# **Targa's Premier Permian Asset Footprint**

#### Recent Delaware Basin acquisition further enhance systems across the Delaware and Midland Basins

Multi-plant, multi-system Permian footprint, complemented by Grand Prix and Daytona NGL pipelines integration and connectivity to natural gas residue takeaway pipelines

Premier Permian G&P position backed by significant acreage dedications from diverse producer group

36 plants with ~6.9 Bcf/d<sup>(1)</sup> of total gross natural gas processing capacity

Midland capacity ~3.6 Bcf/d Delaware capacity ~3.3 Bcf/d

targaresources.com

### **Permian Basin Fundamentals**

Permian Basin is poised for continued robust growth, driving increasing demand for Targa's midstream services

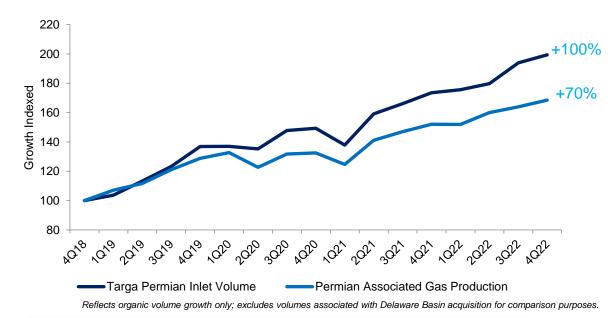

50%

Permian accounts for >50% of US shale rigs<sup>(1)</sup>

80%

~80% of Targa's natural gas inlet volumes sourced from the Permian<sup>(2)</sup>

#### Targa Outperforming Permian Basin Production Curve (1)

#### Strength and Resiliency of Targa's Permian Basin position

- Supported by large-cap, diverse producer customers
- Targa team remains focused in providing best-in-class customer service

om NYSE TRGP

# Targa's Industry Leading Permian G&P System

Permian Basin footprint underpinned by millions of dedicated acres and decades of core drilling inventory

Targa's Permian natural gas inlet volumes have historically grown faster than overall Permian Basin crude oil production, driven by:

- Premier producer customers
- Producers with top-tier acreage positions
- Robust gas-to-oil ratios (GORs)
- Exceptional plant run-times
- Flow assurance for producers (built-in reliability and redundancy)

<sup>(1) 2023</sup>E Targa Permian based on projected inlet volumes outlook. 2024E+ Targa Permian inlet volumes based on the historical growth relationship (2019 – 2021) between Targa Permian inlet volumes and Permian crude oil production (excluding growth relationship in 2020 given data outlier for flat Permian crude oil production).

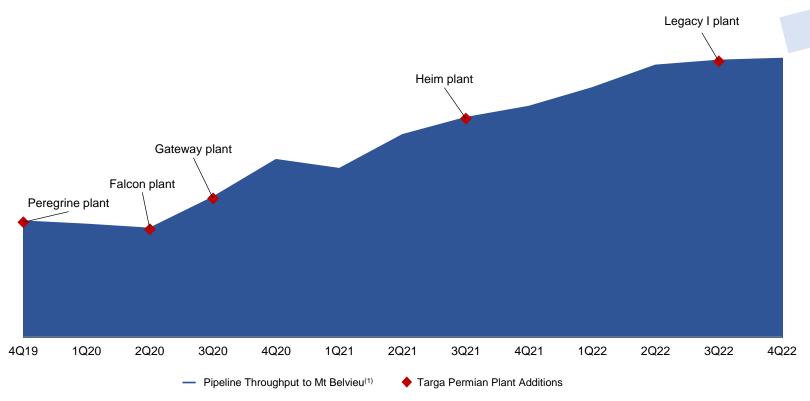

Targa Permian inlet volumes and Permian crude oil production (excluding growth relationship in 2020 given data outlier for hat Permian crude oil production).

Source: Historicals per EIA. 2023E+ forecast represents median estimates from BTU Analytics, Wood Mackenzie, Wells Fargo, Scotiabank, Pickering Energy Partners and East Dalev.

### Targa's NGL Pipeline Transportation System

Targa is expanding its NGL takeaway from the Permian to support growth from Targa's assets and its future plant additions

#### **Announced Targa plants under construction:**

- Legacy II plant 2Q23
- Midway plant 2Q23
- Greenwood plant 4Q23
- Wildcat II plant 1Q24
- Roadrunner II plant 2Q24

#### **Expected Growth in NGL volumes:**

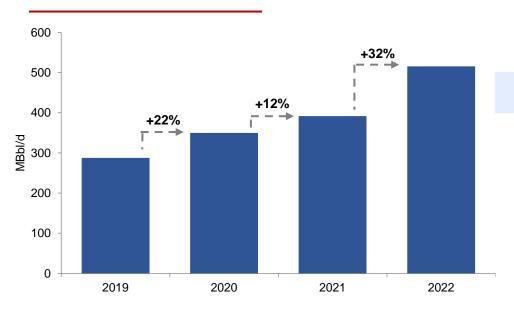

- Targa Permian volume growth
- Targa plant additions under construction
- Targa future plant additions
- Expiration of obligations on third party pipelines
- Increasing volume commitments from third parties
- New third-party contracts
- To complement its Grand Prix NGL Pipeline, Targa is constructing the Daytona NGL Pipeline to support growth in NGLs from Targa's Permian G&P position and third parties

# **NGL Production Feeds Logistics & Transportation Assets**

Targa's NGL pipelines connect and direct significant NGL volumes to its fractionation complex in Mont Belvieu

#### Significant NGLs from Targa's Permian Plants

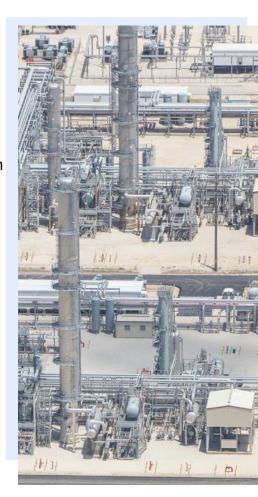

- Targa is one of the largest daily movers of NGLs in the Permian Basin
- Targa can direct the vast majority of its NGL production to its fractionation facilities in Mont Belvieu

#### Targa's NGL Transportation Pipelines

- Grand Prix and Daytona NGL pipelines connect supply to the NGL market hub and to Targa Downstream assets in Mont Belvieu
- Targa's NGL pipelines are positioned to benefit from growth in Permian supply and NGL production from Targa plants and from third parties

#### Targa's Premier Fractionation Ownership in Mont Belvieu

- Mont Belvieu is the U.S. NGL market hub developed over decades of industry investment
- Superior connectivity to demand (U.S. petrochemical complex and exports)

targaresources.com NYSE TRGP

# Strong LPG Fundamentals Supportive of Increased Exports

#### Targa's wellhead to water NGL strategy adds significant barrels into its system that are available for export

- Increasing global demand for propane and butane driven by a re-opening of the Chinese economy and broad application for residential and commercial use, in addition to a significant increase in base chemical cracking and PDH demand, notably in Asia
- Historically, >50% of total U.S. LPG exports were shipped to Asia Pacific countries
- The U.S. is the incremental supplier and exporter of NGLs to support growing global demand

# Targa is Well-Positioned to Support Global Energy Needs

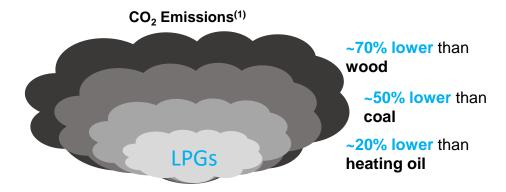

LPG exports provide critical source of cleaner fuels for developing nations and help reduce global CO2 emissions

4.8 Billion

Targa's facilities exported ~4.8 billion gallons of LPGs globally in 2022

#### Use of LPGs Provides Emission Reductions

- LPGs are replacing biomass in many rural communities, and LPG demand is growing in China, India, Indonesia, Bangladesh and across many countries in Africa
  - Where electricity is not available, the use of LPGs have a positive impact on the health and prosperity for local people in these nations by offering a cleaner energy cooking solution
  - LPGs are a reliable energy source that is easily transported and stored with significantly lower emissions
- LPG use supports and enables inclusive economic growth, promotes gender equality, protects the environment, and saves lives

# **ESG Approach – Delivering Energy Sustainably**

Targa is part of the energy infrastructure that is delivering safe, reliable energy across the U.S. and to global communities

#### **Environmental Stewardship**

We are focused on minimizing our impact on the environment and creating environmental awareness, as we work to safely and responsibly fulfill our role in the energy value chain.

#### **Safety Leadership**

We know that our success as a company hinges on our ability to protect our workforce and the public, and to maintain the integrity of our assets. We promote a safety-first culture and operate our assets in a way that continuously exceeds industry standards.

#### **Corporate Governance**

We seek to operate our business responsibly, ethically, and in a manner aligned with the interests of our shareholders. We believe that good corporate governance creates a business environment that is conducive to long-term investments and sustainable economic growth.

#### **Social Responsibility**

Our talented and dedicated team is our most valuable resource, and we are committed to their health, safety and development. Our commitment to building and fostering trust in the workplace also extends to the communities we serve.

# Reconciliations

### **Non-GAAP Financial Measures**

This presentation includes the Company's non-GAAP financial measures: adjusted EBITDA, distributable cash flow, and adjusted free cash flow. The following tables provide reconciliations of these non-GAAP financial measures to their most directly comparable GAAP measures.

The Company utilizes non-GAAP measures to analyze the Company's performance. Adjusted EBITDA, distributable cash flow, adjusted free cash flow and adjusted operating margin (segment) are non-GAAP measures. The GAAP measures most directly comparable to these non-GAAP measures are income (loss) from operations, Net income (loss) attributable to Targa Resources Corp. and segment operating margin. These non-GAAP measures should not be considered as an alternative to GAAP measures and have important limitations as analytical tools. Investors should not consider these measures in isolation or as a substitute for analysis of the Company's results as reported under GAAP. Additionally, because the Company's non-GAAP measures exclude some, but not all, items that affect income and segment operating margin, and are defined differently by different companies within the Company's industry, the Company's definitions may not be comparable with similarly titled measures of other companies, thereby diminishing their utility. Management compensates for the limitations of the Company's non-GAAP measures as analytical tools by reviewing the comparable GAAP measures, understanding the differences between the measures and incorporating these insights into the Company's decision-making processes.

#### **Adjusted EBITDA**

The Company defines adjusted EBITDA as Net income (loss) attributable to Targa Resources Corp. before interest, income taxes, depreciation and amortization, and other items that the Company believes should be adjusted consistent with the Company's core operating performance. The adjusting items are detailed in the adjusted EBITDA reconciliation table and its footnotes. Adjusted EBITDA is used as a supplemental financial measure by the Company and by external users of the Company's financial statements such as investors, commercial banks and others to measure the ability of the Company's assets to generate cash sufficient to pay interest costs, support the Company's indebtedness and pay dividends to the Company's investors.

#### Distributable Cash Flow and Adjusted Free Cash Flow

The Company defines distributable cash flow as adjusted EBITDA less cash interest expense on debt obligations, cash tax (expense) benefit and maintenance capital expenditures (net of any reimbursements of project costs). The Company defines adjusted free cash flow as distributable cash flow less growth capital expenditures, net of contributions from noncontrolling interest and net contributions to investments in unconsolidated affiliates. Distributable cash flow and adjusted free cash flow are performance measures used by the Company and by external users of the Company's financial statements, such as investors, commercial banks and research analysts, to assess the Company's ability to generate cash earnings (after servicing the Company's debt and funding capital expenditures) to be used for corporate purposes, such as payment of dividends, retirement of debt or redemption of other financing arrangements.

- Includes the change in estimated redemption value of the mandatorily redeemable preferred interests.
- Gains or losses on debt repurchases or early debt extinguishments.
- Includes financial advisory, legal and other professional fees, and other one-time transaction costs.
- Risk management activities related to derivative instruments including the cash impact of hedges acquired in the 2015 mergers with Atlas Energy L.P. and Atlas Pipeline Partners L.P. The cash impact of the acquired hedges ended in December 2017.
- Represents one-time severance and related benefit expense related to the Company's cost reduction measures.
- Noncontrolling interest portion of depreciation and amortization expense (including the effects of the impairment of long-lived assets on non-controlling interests).
- Beginning in the second quarter of 2019, we revised our reconciliation of Net Income (Loss) attributable to TRC to Adjusted EBITDA to exclude the Splitter Agreement adjustment previously included in the comparative periods presented herein. For all comparative periods presented, our Adjusted EBITDA measure previously included the Splitter Agreement adjustment, which represented the recognition of the annual cash payment received under the condensate splitter agreement ratably over four quarters. The effect of these revisions reduced TRC's Adjusted EBITDA by \$75.2 million and \$43.0 million for 2018 and 2017. There was no impact to Distributable Cash Flow.

Veer Friday December 26

- In Distributable Cash Flow, Splitter Agreement represents the annual cash payment in the period received.
- Excludes amortization of interest expense.
- Represents capital expenditures, net of contributions from noncontrolling interests and includes net contributions to investments in unconsolidated affiliates.
- NYSE TRGP (11) Includes an adjustment, reflecting the benefit from net operating loss carryback to 2015 and 2014, which was recognized over the periods between the third quarter 2016 recognition of the receivable and the anticipated receipt date of the refund. The refund, previously expected to be received on or before the fourth quarter of 2017, was received in the second quarter of 2017. The remaining \$20.9 million unamortized balance of the tax refund was therefore included in Distributable Cash Flow in the second quarter of 2017. Also includes a refund of Texas margin tax paid in previous periods and received in 2017.

### **Non-GAAP Measures Reconciliation**
