Filed by Targa Resources Corp.
Pursuant to Rule 425 of the Securities Act of 1933
and deemed filed pursuant to Rule 14a-12
of the Securities Exchange Act of 1934
Subject Company: Targa Resources Partners LP
Commission File No.: 001-33303

This filing relates to a proposed business combination involving Targa Resources Corp. and Targa Resources Partners LP.

Targa Resources Bank of America Merrill Lynch Leveraged Finance Conference December 2-4, 2015

Forward Looking Statements

Certain statements in this presentation are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including, without limitation, statements regarding the expected benefits of the proposed transaction to Targa Resources Corp. ("TRC") and Targa Resources Partners LP ("TRP") and their stockholders and unitholders, respectively, the anticipated completion of the proposed transaction or the timing thereof, the expected future growth, dividends, distributions of the combined company, and plans and objectives of management for future operations. All statements, other than statements of historical facts, included in this presentation that address activities, events or developments that TRC or TRP expects, believes or anticipates will or may occur in the future, are forward-looking statements. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of uncertainties, factors and risks, many of which are outside the control of TRC and TRP, which could cause results to differ materially from those expected by management of TRC and TRP. Such risks and uncertainties include, but are not limited to, weather, political, economic and market conditions, including a decline in the price and market demand for natural gas, natural gas liquids and crude oil, the timing and success of business development efforts; and other uncertainties. These and other applicable uncertainties, factors and risks are described more fully in TRC's and TRP's filings with the Securities and Exchange Commission (the "SEC"), including the Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Neither TRC nor TRP undertakes an obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Additional Information

Additional Information and Where to Find It

In connection with the proposed transaction, TRC will file with the SEC a registration statement on Form S-4 that will include a joint proxy statement of TRP and TRC and a prospectus of TRC (the "joint proxy statement/prospectus"). In connection with the proposed transaction, TRC plans to mail the definitive joint proxy statement/prospectus to its shareholders, and TRP plans to mail the definitive joint proxy statement/prospectus to its unitholders.

INVESTORS, SHAREHOLDERS AND UNITHOLDERS ARE URGED TO READ THE JOINT PROXY STATEMENT/PROSPECTUS AND OTHER RELEVANT DOCUMENTS FILED OR TO BE FILED WITH THE SEC CAREFULLY AND IN THEIR ENTIRETY WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT TRC AND TRP, AS WELL AS THE PROPOSED TRANSACTION AND RELATED MATTERS.

This communication does not constitute an offer to sell or the solicitation of an offer to buy any securities or a solicitation of any vote or approval.

A free copy of the joint proxy statement/prospectus and other filings containing information about TRC and TRP may be obtained at the SEC's Internet site at www.sec.gov. In addition, the documents filed with the SEC by TRC and TRP may be obtained free of charge by directing such request to: Targa Resources, Attention: Investor Relations, 1000 Louisiana, Suite 4300, Houston, Texas 77002 or emailing jkneale@targaresources.com or calling (713) 584-1133. These documents may also be obtained for free from TRC's and TRP's investor relations website at www.targaresources.com.

Participants in Solicitation Relating to the Merger

TRC and TRP and their respective directors, executive officers and other members of their management and employees may be deemed to be participants in the solicitation of proxies from the TRC shareholders or TRP unitholders in respect of the proposed transaction that will be described in the joint proxy statement/prospectus. Information regarding TRC's directors and executive officers is contained in TRC's definitive proxy statement dated March 26, 2015, which has been filed with the SEC. Information regarding directors and executive officers of TRP's general partner is contained in TRP's Annual Report on Form 10-K for the year ended December 31, 2014, which has been filed with the SEC.

A more complete description will be available in the registration statement and the joint proxy statement/prospectus.

TRC Buy-In of TRP - Transaction Overview

- On November 3rd, 2015 Targa Resources Corp. (NYSE: TRGP; "TRC" or the "Company") announced it has executed a definitive agreement to acquire all of the outstanding common units of Targa Resources Partners LP (NYSE: NGLS; "TRP" or the "Partnership") not already owned by TRC
- TRP common unitholders will receive 0.62 of a TRC share for each TRP common unit
 - 100% of consideration to TRP common unitholders in the form of TRC shares
 - Implies 18% premium to TRP 10-trading day volume-weighted average price and 18% premium to 11/2/2015 close
 - No additional financing requirements
- All existing debt remains at TRP and Series A preferred units at TRP remain outstanding
 - · No change of control triggered across the capital structure
 - Taxable transaction to TRP common unitholders(1) with step-up to TRC
 - TRP's incentive distribution rights will be eliminated
- Transaction is expected to close in Q1 2016, subject to customary closing conditions
 - Terms of the transaction have been approved by the TRP Conflicts Committee and the TRP and TRC Boards of Directors
 - Requires approvals from TRP common unitholders and TRC shareholders

Transaction expected to provide both immediate and long-term benefits to Targa's investors

TARGA (1) Taxes paid will vary depending on individual common unitholder attributes

Positioning Targa for Continued Long-Term Success

Improved Coverage and Credit Profile

- Expected cumulative incremental coverage of over \$400 million through 2018⁽¹⁾
- Increased coverage supports dividend growth outlook, while reducing external financing
- Expected dividend coverage greater than 1.05x through 2018(1)
- Reduces leverage and expected to improve metrics over time

Simplified Structure

- C-Corp structure with \$9 billion pro forma market capitalization should attract broader universe of investors
- Deeper pool of capital available to finance growth
- One public entity structure with simplified governance

Improved Cost of Capital

- . Elimination of IDRs provides immediate cost of capital improvement
- Lower cost of equity improves competitive position for expansion and acquisition opportunities
- Tax attributes of combination lowers TRC's cash taxes

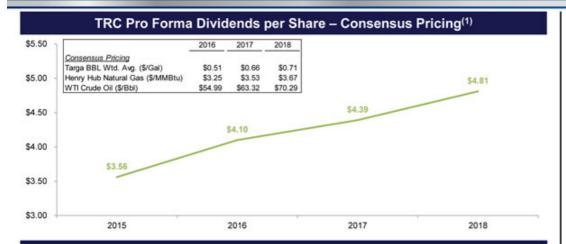

Stronger **Long-Term Growth** Outlook

- Immediately accretive to TRC shareholders
- Transaction allows Targa to continue to invest in high-return growth projects
- Better positioned for "lower for longer" environment in downside cases
- · Enhanced upside potential in price recovery cases

TARGA (1) Based on Consensus Pricing case, consistent with scenario shown to Targa's respective Boards to be provided in proxy materials

Improved Dividend Growth and Coverage

Pro Forma:

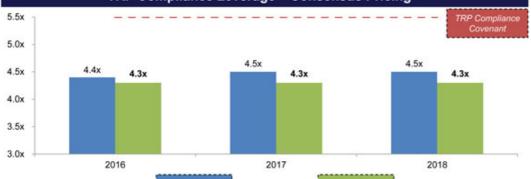

- Strong pro forma dividend growth compared to current flat TRP distribution outlook
 - 15% expected dividend growth in 2016
 - Over 10% estimated dividend CAGR from 2015 to 2018
- ~0.2x average improvement in pro forma coverage
- Stronger coverage improves capital access and supports dividend growth outlook

TRP Standalone:

- EBITDA growth offset by lower hedge settlements, IDR giveback roll-off and growing interest expense from coverage shortfall
- Results in relatively flat coverage at \$3.30 distribution per unit

Improved Credit Profile

- · TRP's existing debt remains outstanding
- TRP will continue as a reporting entity
- · TRP will continue to have flexibility under its leverage compliance covenant (remains 5.5x)
- TRP leverage profile improves over time through increased retained cash flow

- Targa is not subject to a compliance covenant for consolidated leverage
- Targa enterprise leverage improves as well

Better Positioned in Lower Commodity Price Environments

Pro Forma

- Dividend growth with positive coverage even in lower price scenario
 - ~10% expected dividend growth in 2016
 - Modest growth thereafter
- Pro forma coverage improves ~0.2x on average
- Increased retained cash flow improves leverage

TRP Standalone:

- Flat EBITDA profile offset by IDR giveback roll-off and growing interest expense from coverage shortfall
- Results in declining coverage at \$3.30 distribution per unit

ŏ

Better Positioned in Lower Commodity Price Environments

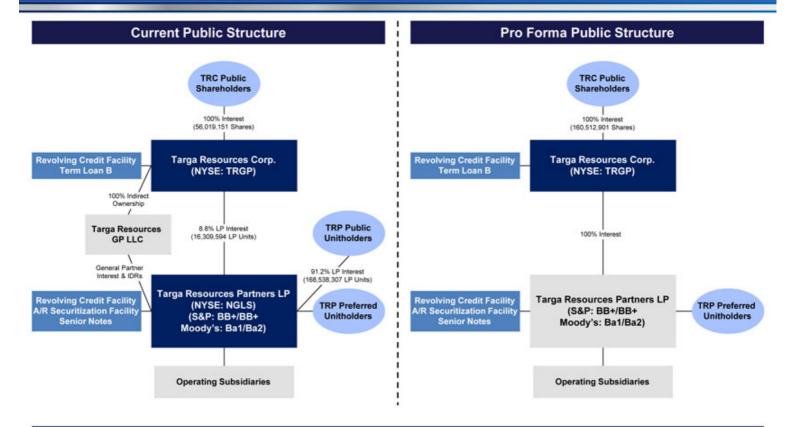

- TRP's existing debt remains outstanding
- TRP will continue as a reporting entity
- TRP will continue to have flexibility under its leverage compliance covenant (remains 5.5x)
- TRP leverage profile improves over time through increased retained cash flow

- Targa is not subject to a compliance covenant for consolidated leverage
- Targa enterprise leverage improves as well

Simplified Public Structure

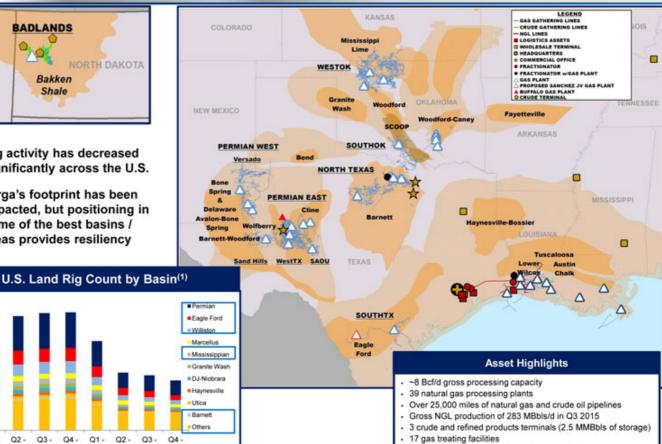

TRC pro forma market capitalization of \$9 billion –
Attracts broader universe of investors and accesses deeper pool of capital

Attractive Asset Positions Despite Lower Producer Activity

- Rig activity has decreased significantly across the U.S.
- Targa's footprint has been impacted, but positioning in some of the best basins / areas provides resiliency

Over 570 MBbl/d gross fractionation capacity ~6.5-7.0 MMBbl/month capacity LPG export terminal

TARGA (1) Proforma Targa/TPL for all years

Major Capital Projects in Progress

- Expect approximately \$700 to \$800 million of growth capex in 2015
 - G&P expansion program growth capex is largely additional gathering lines and compression, providing incremental returns upon completion
 - Completion of 200MMcf/d Buffalo Plant in WestTX is expected in 1H 2016, providing additional capacity to capture volumes across the Midland Basin
 - Recently announced joint venture with Sanchez Energy Corporation for construction of 200MMcf/d plant in La Salle County in SouthTX and approximately 45 miles of associated pipelines supported by long-term, firm, fee-based contracts and acreage dedications is expected in-service in early 2017
- Based on announced projects, expect approximately \$600 million of capex in 2016

Projects in Progress	Total Capex (\$ millions)	2015 Capex (\$ millions)	Expected Completion	Primarily Fee-Based
CBF Train 5 Expansion (100 MBbl/d)	\$385	\$230	Mid 2016	✓
Petroleum Logistics	190 - 350	20	2017+	✓
Other	20	20		✓
Total Downstream Projects	\$595 - \$755	\$270		
North Dakota - Badlands Expansion Program	\$150 - \$320	\$125 - \$200	2015+	✓
Permian Expansion Programs ⁽¹⁾	210 - 370	75 - 120	2015+	
Other G&P Expansion Programs ⁽²⁾	355	230	2015+	
Total G&P Projects	\$715 - \$1,045	\$430 - \$550		
Total Growth Projects	\$1,310 - \$1,800	\$700 - \$800		

~\$500 million of equity issued YTD - no additional equity needs for the balance of 2015

TARGA (1) Includes 200 MMct/d Buffalo Plant in WestTX
(2) Includes 200 MMct/d La Salle County Plant in SouthTX

Future Growth – Projects Under Development

Targa has over \$4 billion of projects under development

 Demand for additional infrastructure across Targa's G&P and Downstream areas of operations continues, with current environment resulting in acceleration of need for some projects and delay for others

Representative projects include:

- Natural gas processing plants (Note: Delaware and Williston basin plants delayed in current environment
- Natural gas gathering lines and associated infrastructure
- Oil gathering lines and associated infrastructure
- NGL fractionation (Train 6 permitting in progress)
- NGL storage

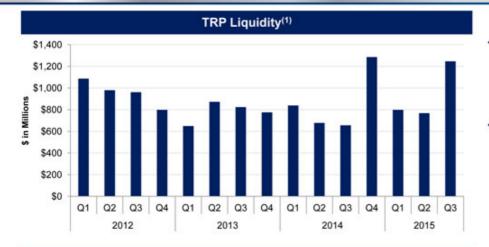

Projects	Total Capex (\$ millions)	Potential Completion	Primarily Fee-Base
Mont Belvieu Area Infrastructure Project		2017	1
Smaller Mont Belvieu Area Project		2017	✓
Downstream	\$300 - \$500		
Project with Producer in Active Basin		2017	1
Other G&P Projects Under Negotiation		2017	
G&P	\$100 - \$600		
Growth Projects	\$400 - \$1,100		>50%
Sanchez Energy JV in Eagle Ford		2017	

Selected Near-Term Growth Projects Under Development

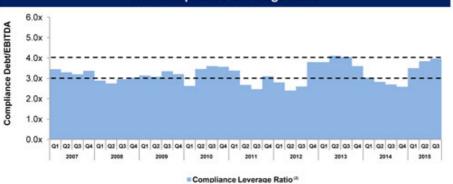

TRP Leverage and Liquidity

- Approximately \$1.25 billion of current liquidity at quarter end
 - Approximately \$1.4 billion pro forma for Series A Preferred Equity offering
- From January through October 2015, received proceeds of approximately \$500 million from equity issuances, including \$316 million of net proceeds from equity issuances under at-themarket ("ATM") program and contributions from TRC to maintain its 2% GP interest, as well as \$121 million from a Series A Preferred Equity offering
- · Executed a \$600 million senior unsecured notes offering in early September
- Target compliance leverage ratio 3x - 4x Debt/EBITDA
 - Q3 2015 compliance leverage ratio was 4.0x,
 - 3.9x pro forma for Series A Preferred Equity offering

TARGA (1) Includes TRP's total availability under the revolver plus cash, less outstanding borrowings and letters of credit under the TRP revolver (2) Adjusts EBITDA to provide credit for material capital projects that are in process, but have not started commercial operation, and other Adjusts EBITDA to provide credit for material capital projects that are in process, but have not started commercial operation, and other items

GCF - Mont Belvieu		125	47
Total - Mont Belvieu		518	393
LCF - Lake Charles		55	55
Total		573	448
	Other Assets		

Mont Belvieu

30 MBbl/d Low Sulfur/Benzene Treating Natural Gasoline Unit

21 Underground Storage Wells

Adding 3 Underground Storage Wells

Pipeline Connectivity to Petchems/Refineries/LCF/etc.

6 Pipelines Connecting Mont Belvieu to Galena Park

Rail and Truck Loading/Unloading Capabilities

Other Gulf Coast Logistics Assets

Channelview Terminal (Harris County, TX)

Patriot Terminal (Harris County, TX)

Hackberry Underground Storage (Cameron Parish, LA)

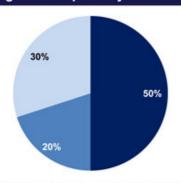

TARGA (1) 100 MBbl/d Train 5 expansion currently under construction

Net capacity is calculated based on TRP's 88% ownership of CBF and 39% ownership of GCF

Targa's LPG Export Business

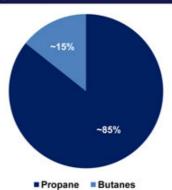

Trailing 12 Months⁽¹⁾ – Targa LPG Exports by Destination

■ Latin America/South America ■ Caribbean ■ Rest of the World

Trailing 12 Months⁽¹⁾ – Targa Propane and Butane Exports

- Fee based business with no direct commodity price exposure charge fee for loading vessel at the dock
- Targa advantaged versus some competitors given support infrastructure (fractionation, salt cavern storage, refrigeration, de-ethanizers)
- Nameplate capacity of 9.0 MMBbl/month; effective operational capacity of 6.5 – 7.0 MMBbl/month
- Multi-year contracts with end users and international trading houses
 - Also support existing LT clients and other third parties with short-term contracts on as-needed basis
- Majority of Targa volumes staying in the Western Hemisphere, but some volumes traveling to Europe and the Far East
- Targa expects to export more than 5.0 MMBbl/month in Q4 2015 and 2016

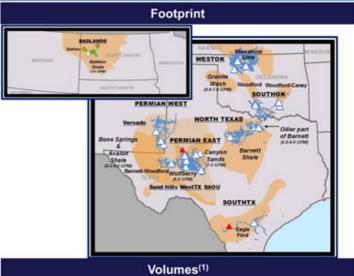

Extensive Field Gathering and Processing Position

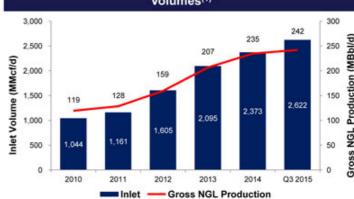

Summary

- Over 24,000 miles of pipeline across attractive positions in the Permian Basin, Eagle Ford Shale, Barnett Shale, Anadarko Basin, Ardmore Basin, Arkoma Basin and Williston Basin
- . Over 3.4 Bcf/d of gross processing capacity
 - Six new cryogenic plants in service in 2014 and Q1 2015 (High Plains, Longhorn, Little Missouri 3, Edward, Stonewall and Silver Oak II), plus 40 MMcf/d Stonewall plant expansion in service Q3 2015
 - Connected WestTX and Sand Hills in Q3 2015; Sand Hills and SAOU connected in Q3 2014
- · Additional gathering and processing expansions:
 - . 200 MMcf/d Buffalo plant expected in service in 1H 2016
 - 200 MMcf/d La Salle County plant in SouthTX expected in service in early 2017
 - . Connection of WestTX and SAOU expected in early 2016

. POP and fee-based contracts

	rrent Gross ssing Capacity (MMcf/d)	Miles of Pipeline
SAOU Permian East	369	1,750
WestTX Permian East	655	3,800
Sand Hills]	175	1,600
Versado Permian West	240	3,350
WestOK	458	6,100
SouthOK	540	1,500
North Texas	478	4,500
SouthTX	400	976
Badlands	90	528
Total	3,405	24,104

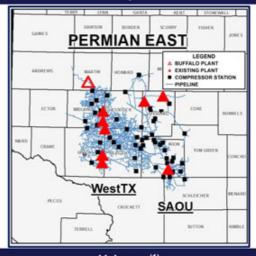

Permian East - Premier Midland Basin Footprint

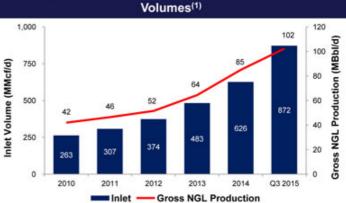

Summary

- Footprint includes approximately 5,500 miles of pipeline in the Midland Basin
- Targa is one of the largest Midland Basin gas processors with over 1.0 Bcf/d in gross processing capacity
 - Significant expansions in 2014 including 200 MMcf/d High Plains plant and 200 MMcf/d Edward plant
 - 200 MMcf/d Buffalo plant expected in service in 1H 2016
 - Connected WestTX and Sand Hills in Q3 2015; Sand Hills and SAOU connected in Q3 2014
 - Reviewing opportunities to connect / optimize systems to enhance reliability, optionality and efficiency for producers
- Connected to Permian West via the Midland County Pipeline running between SAOU and Sand Hills
- Traditionally POP contracts, with additional fee-based services for compression, treating, etc.

	Current Gross Processing Capacity (MMcf/d)	Miles of Pipeline
SAOU	369	1.750
WestTX	655	3,800
Permian East Total	1,024	5,550

Footprint

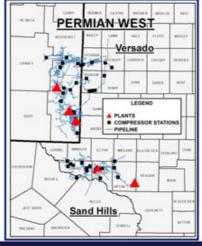

Permian West - Poised to Capture Growth

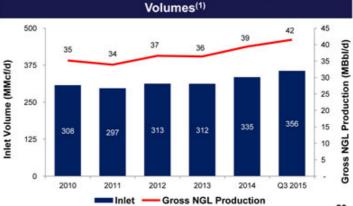

Summary

- Footprint includes approximately 5,000 miles of pipeline
- Significant growth opportunities driven by continued producer activity
 - Processing capacity available at Versado to capture new volumes
 - Adding compression and a high pressure pipeline to move gas from the Delaware Basin into Versado
 - Connected WestTX and Sand Hills in Q3 2015; Sand Hills and SAOU connected in Q3 2014
 - Volume growth at Sand Hills can be moved to SAOU High Plains Plant
- Traditionally POP contracts, with additional fee-based services for compression, treating, etc.

	Current Gross Processing Capacity (MMcf/d)	Miles of Pipeline
Sand Hills	175	1,600
Versado	240	3,350
Permian West Total	415	4,950

Footprint

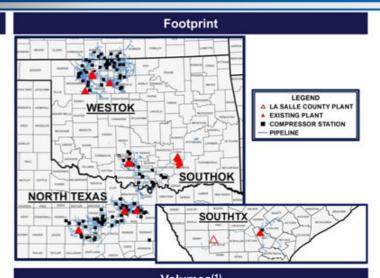

Strategic North Texas, SouthTX and Oklahoma Positions

Summary

- · Four footprints including over 13,000 miles of pipeline
- Over 1.8 Bcf/d of gross processing capacity
 - 200 MMcf/d Longhorn, Silver Oak II, and Stonewall plants placed in service in May 2014
 - Recently announced Sanchez Energy Corporation joint venture in SouthTX to build 200 MMcf/d plant and ~45 miles of associated pipelines in La Salle County expected in service in early 2017
 - 15 processing plants across the liquids-rich Eagle Ford Shale, Barnett Shale, Anadarko Basin, Ardmore Basin and Arkoma Basin
 - Reviewing opportunities to connect / optimize systems to enhance reliability, optionality and efficiency for producers
- Traditionally POP contracts in North Texas and WestOK with additional fee-based services for compression, treating, etc.
- Majority of SouthTX and SouthOK contracts are feebased

	Current Gross Processing Capacity (MMcf/d)	Miles of Pipeline
WestOK	458	6,100
SouthOK	540	1,500
North Texas	478	4,500
SouthTX	400	976
Total	1,876	13,076

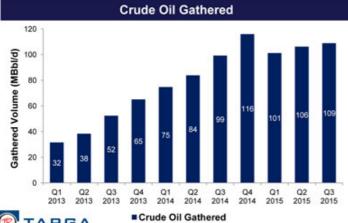

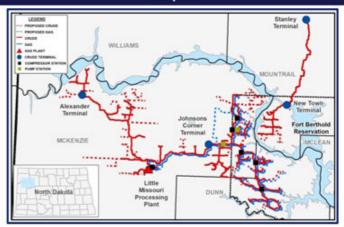

Strategic Position in the Core of the Williston Basin

Summary

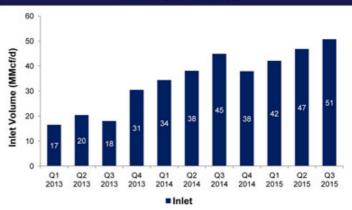

- System currently consists of oil gathering and terminaling and natural gas gathering and processing in McKenzie, Dunn and Mountrail Counties, ND
- Acquired in December 2012; substantial build-out of system since January 2013
 - ~240% growth in crude gathering volumes since acquisition
 - ~200% growth in gas plant inlet volumes since acquisition
- Total natural gas processing capacity of ~90 MMcf/d
 - Little Missouri 3 plant expansion completed in Q1 2015
- Fee-based contracts

Footprint

Natural Gas Volumes

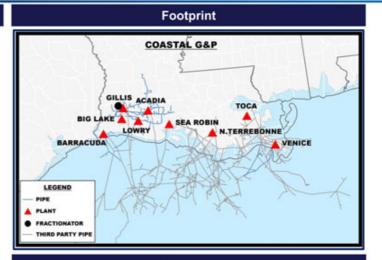

● TARGA

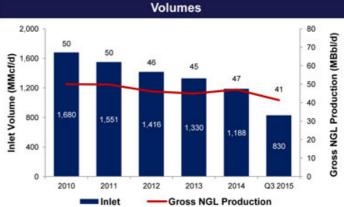

Well Positioned Along the Louisiana Gulf Coast

Summary

- LOU (Louisiana Operating Unit)
 - 440 MMcf/d of gas processing (180 MMcf/d Gillis plant, 80 MMcf/d Acadia plant and 180 MMcf/d Big Lake plant)
 - Interconnected to Lake Charles Fractionator (LCF)
- Coastal Straddles (including VESCO)
 - Positioned on mainline gas pipelines processing volumes of gas collected from offshore
- Inlet volumes and gross NGL production have been declining, but NGL production decreases have been partially offset by moving volumes to more efficient plants
- Primarily POL contracts

	Current Gross Processing Capacity (MMcf/d)	NGL Production (MBbl/d)	
LOU	440	7	
Vesco	750	28	
Other Coastal Straddles	3,255	7	
Total	4,445

TARGA (1) Adjusts EBITDA to provide credit for material capital projects that are in process, but have not started commercial operation, and other items; compliance debt excludes senior notes of Targa Pipeline Partners, LP. ("TPL")

Business Mix, Diversity and Fee Based Margin

Diversity and Scale Mitigate Commodity Price Changes

- Growth has been driven by investing in the business, not by changes in commodity prices
- TRP benefits from multiple factors that help mitigate commodity price volatility, including:
 - Scale
 - Business and geographic diversity
 - Increasing fee-based margin
 - Hedging
- Based on our estimate of current equity volumes, as of the end of the second quarter of 2015, approximately 65% of remaining natural gas, 55% of remaining condensate and 20% of remaining NGLs are hedged for 2015
- Based on our estimate of current equity volumes, approximately 40% of natural gas, 40% of condensate, and 20% of NGLs are hedged for 2016
- Per press release on October 5th, commodity price only sensitivities to 2016 Adjusted EBITDA:
 - +/- \$0.05/gal NGLs = +/- \$20 million Adj. EBITDA
 - +/- \$0.25/MMBtu nat gas = +/- \$10 million Adj. EBITDA
 - +/- \$5.00/bbl crude oil = +/- \$5 million Adj. EBITDA

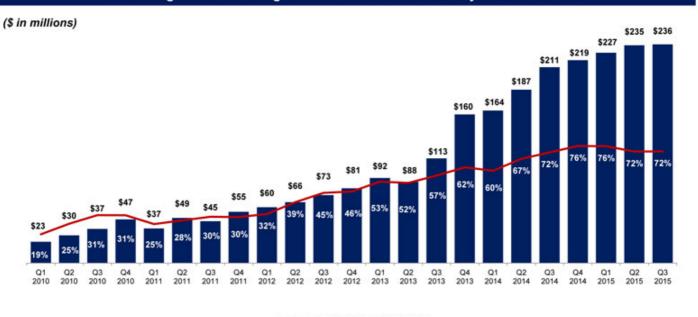

(1) Prices reflect average Q1-Q3 2015 spot prices for WTI crude oil, Henry Hub natural gas, and Mont Betvieu NGLs Note: Targa's composite NGL barrel comprises 37% ethane, 35% propane, 6% iso-butane, 12% normal butane, and 10% natural gasoline

Strong Growth in Fee-Based Margin Continues

Increasing Fee-Based Margin Provides Additional Stability to Our Business

Fees as % of Operating Margin

TRP's growth in fee-based margin provides cash flow stability – At least 70% of 2015E and 2016E operating margin expected to be fee-based

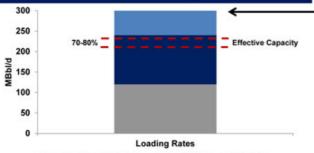

Galena Park Marine Terminal Effective Export Capacity

- Phase I expansion completed in September 2013
- Phase II expansion completed in September 2014
 - Phase II expansion was completed in stages
 - Additional 12" pipeline, refrigeration, and new VLGC-capable dock were placed in-service in Q1 and Q2 2014
 - Additional de-ethanizer at Mont Belvieu was placed in-service in Q3 2014

- = 5000 BPH Fully-Ref #1 Chiller 5000 BPH Fully-Ref #2 Chiller
- ■2500 BPH Semi-Ref Chiller

- Targa's nameplate refrigeration capacity is ~12,500 Bbl/h or ~300 MBbl/d or ~9 MMBbl/month
- Effective capacity for Targa and others is primarily a function of:
 - Equipment run-time and efficiencies
 - Dock space and ship staging
 - Storage and product availability
- Targa's effective capacity of ~6.5 to 7 MMBbl/month is ~70-80% of the nameplate

Dynamics of the Waterborne Propane Market

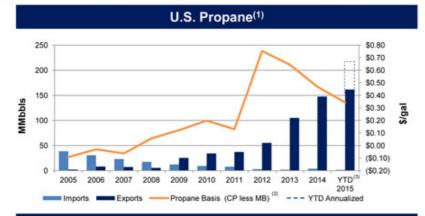

- From January through July 2015, LPG export market was impacted by increasing VLGC freight rates from tight ship availability
- Significant growth in VLGC fleet market in the back half of 2015 and 2016 is positive for USGC export economics
- USGC is geographically advantaged for the robust Latin American, South American and Caribbean markets, where LPG demand is primarily for domestic use
- United States will continue to take market share from higher-cost and less stable LPG sources
- Mid-2016 completion of Panama Canal expansion may make USGC more competitive with Middle East LPG exports in the Far East

Long and Short-Term Demand for Exports Continues

 YTD 2015, the spread between the Saudi Contract propane price and Mont Belvieu propane price has narrowed, but Targa continues to add long and short-term contracts

- Currently exporting low ethane propane, HD5 propane and butane
- Targa can service the global VLGC fleet, while also servicing small, handy and midsized vessels

Targa continues to add long and short-term contracts for LPG exports to our existing portfolio

) Source: IHS) CP = Saudi Contract Price) Data through September 30, 2015

Petroleum Logistics – Highlights

Terminal	Current Storage	Products	Capabilities						
Targa Channelview Houston, TX	553 MBbl	Crude oil, blend stock, asphalt, marine diesel oil, used motor oil, vacuum gas oil, residual fuel oil	Truck and barge transport Blending and heating; Vapor controls						
Targa Sound Tacoma, WA	1,457 MBbl	Crude oil, gasoline, distillates, asphalt, residual fuel oils, LPGs, ethanol, biodiesel	Ship, barge, pipe, rail, and truck transport; Blending and heating; Vapor controls						
Targa Baltimore Baltimore, MD	505 MBbl	Asphalt, fuel oil, vacuum gas oil; ability to expand product handling	Truck, rail, and barge transport; Blending and heating; Can add pipe and ship						
Total	2,515MBbl								

At TRP's Channelview and Patriot Terminals:

- Expanding presence along the Houston Ship Channel
- In 2014 completed construction of a new 8 bay truck rack and installed a marine vapor combustor for crude barge loading at Channelview
- Agreements with Noble Americas Corp. to build a storage terminal at Patriot, condensate splitter at Channelview, or both projects

· At TRP's Sound Terminal:

- Increased storage capacity in 2014, and added ethanol, biodiesel and gasoline blending to the truck loading racks
- Evaluating rail capacity expansions, new dock access for deeper draft and other growth opportunities

Marketing and Distribution Segment

Marketing and Distribution Highlights

NGL and Natural Gas Marketing

- Manage physical distribution of mixed NGLs and specification products using owned and third party facilities
- · Manage inventories for Targa downstream business
- Provide propane and butane for international export with ~50% / 50% margin split with Logistics
- · Buy and sell natural gas to optimize Targa assets

Wholesale Propane

- Sell propane to multi-state, independent retailers and industrial accounts on a fixed or posted price at delivery
- · Tightly managed inventory sold at an index plus

Refinery Services

- Balance refinery NGL supply and demand requirements
- · Propane, normal butane, isobutane, butylenes
- Contractual agreements with major refiners to market NGLs by barge, rail and truck
- · Margin-based fees with a fixed minimum per gallon

Commercial Transportation

- All fee-based
- · 681 railcars leased and managed
- · 85 owned and leased transport tractors
- 21 pressurized NGL barges

This segment incorporates the skills and capabilities that enable other Targa businesses

Reconciliations

Non-GAAP Measures Reconciliation

This presentation includes the non-GAAP financial measure of Adjusted EBITDA. The presentation provides a reconciliation of this non-GAAP financial measures to its most directly comparable financial measure calculated and presented in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Our non-GAAP financial measures should not be considered as alternatives to GAAP measures such as net income, operating income, net cash flows provided by operating activities or any other GAAP measure of liquidity or financial performance.

Non-GAAP Measures Reconciliation

Adjusted EBITDA – The Partnership defines Adjusted EBITDA as net income attributable to Targa Resources Partners LP before: interest; income taxes; depreciation and amortization; gains or losses on debt repurchases and redemptions, early debt extinguishments and asset disposals; risk management activities related to derivative instruments including the cash impact of hedges acquired in the APL merger; non-cash compensation on Partnership equity grants; non-recurring transaction costs related to acquisitions; earnings/losses from unconsolidated affiliates net of distributions and the non-controlling interest portion of depreciation and amortization expenses. Adjusted EBITDA is used as a supplemental financial measure by the Partnership and by external users of its financial statements such as investors, commercial banks and others. The economic substance behind management's use of Adjusted EBITDA is to measure the ability of the Partnership's assets to generate cash sufficient to pay interest costs, support indebtedness and make distributions to investors.

Adjustment EBITDA is a non-GAAP measure. The GAAP measures most directly comparable to Adjusted EBITDA are net cash provided by operating activities and net income attributable to Targa Resources Partners LP. Adjusted EBITDA should not be considered as an alternative to GAAP net cash provided by operating activities or GAAP net income attributable to Targa Resources Partners LP. Adjusted EBITDA has important limitations as an analytical tool. Investors should not consider Adjusted EBITDA in isolation or as a substitute for analysis of the Partnership's results as reported under GAAP. Because Adjusted EBITDA excludes some, but not all, items that affect net income attributable to Targa Resources Partners LP and net cash provided by operating activities and is defined differently by different companies in the Partnership's industry, the Partnership's definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies, thereby diminishing its utility.

Management compensates for the limitations of Adjusted EBITDA as an analytical tool by reviewing the comparable GAAP measures, understanding the differences between the measures and incorporating these insights into its decision-making processes.

Non-GAAP Reconciliation – Q3 2015 EBITDA and Gross Margin

The following table presents a reconciliation of Adjusted EBITDA and operating margin to net income (loss) for the periods shown for TRP:
