

Targa Resources Corp.

Barclays CEO Energy-Power Conference
September 4, 2019

TARGA

Forward Looking Statements

Certain statements in this presentation are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this presentation that address activities, events or developments that Targa Resources Corp. (NYSE: TRGP; "Targa", "TRC" or the "Company") expects, believes or anticipates will or may occur in the future are forward-looking statements. These forward-looking statements rely on a number of assumptions concerning future events and are subject to a number of uncertainties, factors and risks, many of which are outside the Company's control, which could cause results to differ materially from those expected by management of Targa Resources Corp. Such risks and uncertainties include, but are not limited to, weather, political, economic and market conditions, including declines in the production of natural gas or in the price and market demand for natural gas and natural gas liquids, the timing and success of business development efforts, the credit risk of customers and other uncertainties. These and other applicable uncertainties, factors and risks are described more fully in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 and subsequently filed reports with the Securities and Exchange Commission. The Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Premier Energy Infrastructure Company

Diverse Asset Platform Connects Low Cost Natural Gas and NGL Supply Growth to Key Demand Markets

Substantial natural gas gathering & processing in top-tier basins

~10.8 Bcf/d gross processing capacity and growing⁽¹⁾

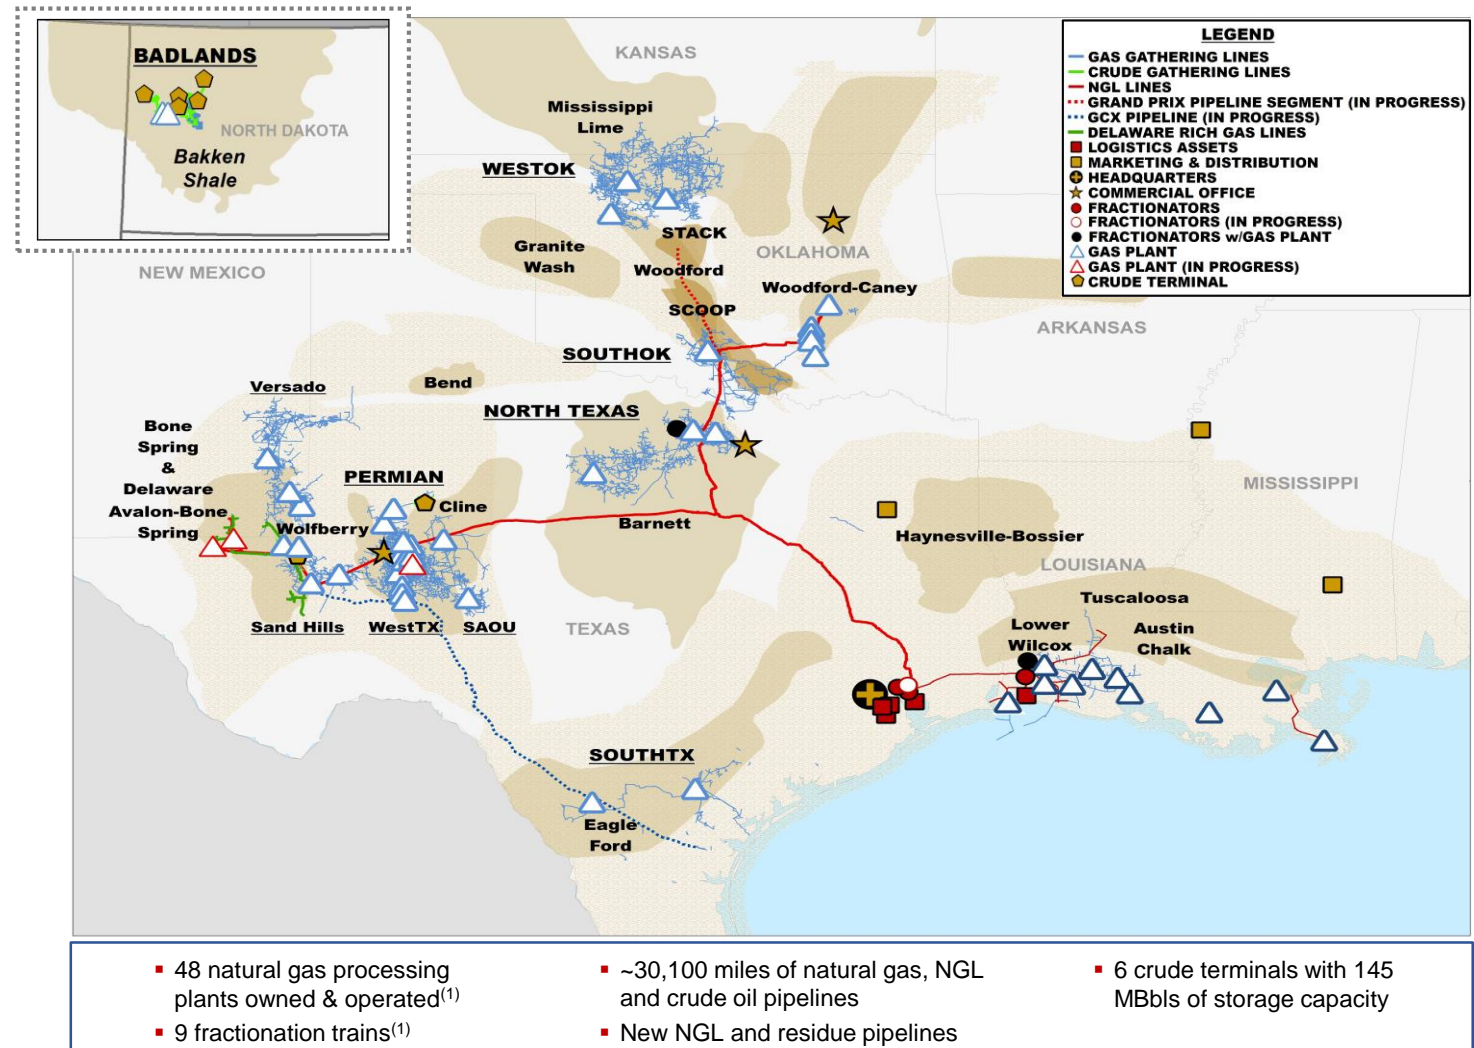

Premier NGL fractionation footprint in Mont Belvieu

~938 MBbl/d gross fractionation capacity and growing⁽²⁾

Grand Prix NGL Pipeline connects G&P volumes to Mont Belvieu frac and export assets

Superior connectivity to US petrochemical complex and top-tier LPG export facility⁽³⁾

7.0 MMBbl/month capacity LPG export terminal

⁽¹⁾ Includes plants and frac trains publicly announced and in process

⁽²⁾ Includes both 110 MBbl/d Trains 7 and 8 expansions underway in Mont Belvieu

⁽³⁾ Directly linked to Mont Belvieu, the US NGL hub, which handles the majority of US NGLs; expansion underway to increase capacity to 11 to 15 million barrels per month in Q3 2020

Targa Business Overview

Portfolio of Integrated Assets Across Natural Gas and Natural Gas Liquids Value Chain

A Core Energy Infrastructure Holding

Premier Asset Position	Visible Growth	Financial Discipline	Positioned for Long-Term Success
<ul style="list-style-type: none">▪ One of the largest G&P positions in the Permian Basin with significant access to NGL supply▪ Integrated asset platform: top-tier basins; Grand Prix Pipeline to Downstream▪ Downstream business connected to US domestic hub and international demand	<ul style="list-style-type: none">▪ Capital investments underway support sustainable fee-based growth outlook▪ Transformative growth has increased size, scale and enhances business diversity▪ Ramping EBITDA significantly increases free cash flow over forecast period	<ul style="list-style-type: none">▪ Strong track-record of financial execution to preserve balance sheet strength▪ EBITDA increase from recently completed growth projects to drive strong balance sheet metrics▪ Disciplined capital allocation to drive long-term shareholder value	<ul style="list-style-type: none">▪ Asset platform aligns with key energy supply and demand fundamentals▪ Investments enhance integration across the value chain and bolster competitive position▪ Single C-Corp public security and excellent alignment with common shareholders
~\$8 Billion Market Cap⁽¹⁾ ~\$16 Billion Enterprise Value	~75% Fee-Based Operating Margin⁽²⁾		\$3.64/share Annual Dividend

Integrated Platform Supports Increasing Fee-Based Profile

Business Mix and Fee-Based Profile⁽¹⁾

Integrated Midstream Platform Strengthens the Durability of Targa's Earnings and Cash Flow Profile

Increasing Fee-Based Trajectory

- **Migration of business mix towards Downstream driven by Targa's integrated midstream platform, recently completed growth projects and expansions underway**
 - ▶ Grand Prix pipeline volume ramp
 - ▶ Fractionation expansions underway
 - ▶ LPG export expansion underway
- **G&P segment growth is predominantly fee-based**
 - ▶ Delaware Basin processing expansions underway
 - ▶ Badlands processing growth
- **Enhanced focus in increasingly adding fee-based margin across G&P**

⁽¹⁾ Business mix and fee-based profile based on 2019E operating margin

⁽²⁾ Fee-based margin in Gathering & Processing segment includes Badlands (fully consolidated operating margin), SouthOK, SouthTX and significant portions of Permian and WestOK

Strategic Outlook

Investments leverage existing Targa infrastructure and further strengthen competitive advantage

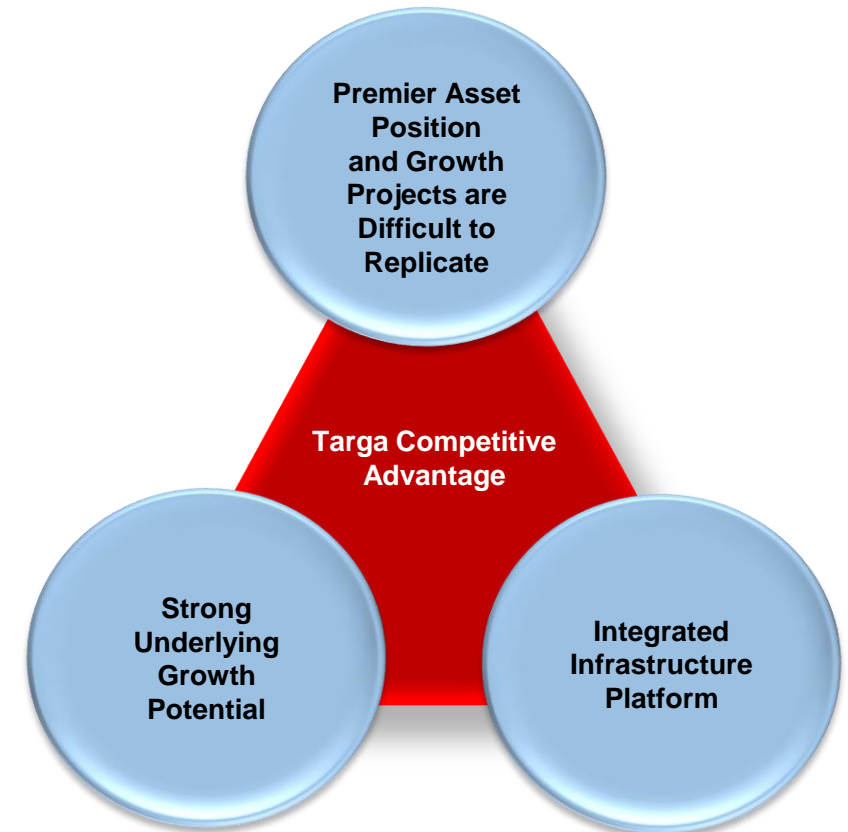

- ~80% of announced growth capital program focused on the Permian Basin⁽¹⁾

Increasing producer volumes drive the need for additional G&P infrastructure

- Supply aggregation adding over 2.3 Bcf/d of incremental natural gas processing capacity from 2018 - 2020 and expanding infrastructure across the Permian Basin, SCOOP, STACK, Bakken
- Position across the Midland and Delaware Basins in the Permian expected to drive need for additional future G&P infrastructure

Downstream benefits from rising G&P production and is also supported by positive long-term demand fundamentals

- Grand Prix NGL Pipeline enhances value chain integration and strengthens ability to direct growing NGL production from Targa plants and third-party customers to Targa's fractionation assets in Mont Belvieu
- Increasing fractionation demand from higher producer volumes and from greater ethane extraction as new petrochemical facilities come online; additional Targa fractionation expansion in Mont Belvieu underway
- Excess propane and butanes from expected NGL production growth will be exported to clear the domestic market

Infrastructure Investments Focused on the Permian

- An increasing fee-based and operating margin outlook underpinned by attractive organic growth projects, the vast majority are now online, with ~80%⁽¹⁾ of total project capex focused on the Permian Basin;

Permian-Focused Infrastructure Projects	Details	In-Service Date
Midland Basin Processing Expansions	<ul style="list-style-type: none"> ▪ 5 new gas plants, combined 1,150 MMcf/d incremental processing capacity, and related infrastructure ▪ Supported by long-term producer acreage dedications 	1Q18 to 4Q20
Delaware Basin Processing Expansions	<ul style="list-style-type: none"> ▪ 2 new gas plants, combined 310 MMcf/d incremental processing capacity, and related infrastructure ▪ Supported by long-term producer acreage dedications and fee-based contracts 	Completed in 2Q18
Delaware Basin Processing Expansions and Rich Gas Gathering	<ul style="list-style-type: none"> ▪ 2 new gas plants, combined 500 MMcf/d incremental processing capacity, and related infrastructure ▪ 220 miles of 12- to 24-inch diameter high pressure rich gas gathering pipelines ▪ Supported by long-term fee-based contracts with an investment grade energy company 	2019 to 2Q20
Grand Prix NGL Pipeline	<ul style="list-style-type: none"> ▪ Common carrier NGL pipeline from Permian Basin to Mont Belvieu with initial capacity of 300 MBbl/d from Permian, expandable to 550 MBbl/d ▪ Supported by Targa plant production and significant long-term third-party fee-based transportation & fractionation agreements 	Completed in 3Q19
Gulf Coast Express (GCX) Pipeline	<ul style="list-style-type: none"> ▪ 25% equity interest in 1.98 Bcf/d residue gas pipeline from Permian Basin to Agua Dulce ▪ Supported by long-term, firm shipper commitments 	4Q19
Mont Belvieu Fractionation Expansion	<ul style="list-style-type: none"> ▪ 3 new NGL fractionators, combined 320 MBbl/d incremental fractionation capacity, and related infrastructure ▪ Supported by long-term fee-based agreements 	2Q19 to 3Q20

Investments in Oklahoma and Bakken

- Infrastructure investments in Oklahoma and Bakken support growing production
- Joint venture and contracting arrangements enhance project returns and support capital efficiency

Oklahoma and Bakken Focused Infrastructure Projects	Details	In-Service Date
Grand Prix Extension into southern Oklahoma	<ul style="list-style-type: none">▪ Supported by significant long-term transportation and fractionation volume dedications and commitments from Targa's existing and future processing plants in the Arkoma area within Targa's SouthOK system▪ Supported by significant long-term transportation and fractionation volume commitments from Valiant Midstream	Completed in 3Q19
Grand Prix Extension into central Oklahoma	<ul style="list-style-type: none">▪ Supported by significant long-term transportation and fractionation volume dedications and commitments from Williams▪ Provides expanded NGL infrastructure to open markets between Conway and Mont Belvieu▪ Improved market access for both Rockies and DJ Basin NGL production	1Q21
Hickory Hills Plant	<ul style="list-style-type: none">▪ 150 MMcf/d incremental processing capacity, and related infrastructure (relocation of the Flag City Plant)▪ Expanded 60/40 processing JV with MPLX in Arkoma area▪ Supported by long-term producer acreage dedications and fee-based contracts	Completed in 2018
Little Missouri 4 Plant	<ul style="list-style-type: none">▪ 200 MMcf/d incremental processing capacity, and related infrastructure in the Bakken▪ 50/50 processing JV with Hess Midstream Partners▪ Supported by long-term producer acreage dedications and fee-based contracts	Completed in 3Q19

2019 Announced Net Growth Capex

- 2019E net growth capex based on announced projects estimated at ~\$2.4 billion
 - With the vast majority of announced projects now online, Targa's 2020E net growth capex is estimated to be significantly lower than 2019E

(\$ in millions)	Location	2019E Net Growth Capex	Expected Completion	Primarily Fee-Based

Strengthening Financial Profile

- **2019 estimated equity financing needs substantially met from the closing of the sale of a 45% interest in the Badlands for \$1.6 billion**
- **Line of sight to strengthening dividend coverage and increasing cash flow**
 - ▶ Adjusted EBITDA and cash flow to ramp in 2H 2019 from recently completed growth projects, providing strong momentum for 2020
 - ▶ The trajectory of Targa's growth capex substantially moderates in 2H 2019 and beyond given largest capital project in Targa history, Grand Prix, and other major expansions are complete
- **Continuing to manage the balance sheet prudently over the short- and long-term**
 - ▶ Targa expects to benefit from rapid deleveraging and dividend coverage improvement over time
- **Scrutiny on new capital projects focused on aligning capital spend with available cash flow going forward**
 - ▶ Particular focus on identifying opportunities to leverage existing assets and invest around Targa's core integrated strategy of G&P to Grand Prix to Mont Belvieu to export markets

Key Takeaways

Integrated & Strategically Located Assets

- Right assets in the right places - premier position in the Permian Basin and G&P volume growth further increases Downstream asset utilization
- Grand Prix NGL Pipeline bolsters integrated infrastructure capabilities and connects growing premier basin supply to premier demand market hub for NGLs

Visible Growth Outlook

- Producer-driven need for more infrastructure drives capex program and high asset utilization
- Increasing EBITDA and fee-based margin outlook underpinned by attractive organic growth projects underway

Benefiting from Key Domestic Energy Themes

- Continued strong long-term outlook for Permian Basin growth, complemented by significant size, scale and operating leverage further strengthens Targa's competitiveness
- Strong Downstream connection with Permian and other basins enhanced by demand pull from petrochemical expansions and positive long-term fundamentals for international LPG exports

Financially Disciplined

- Significant incremental EBITDA growth expected through 2021 and beyond strengthens balance sheet outlook and to drive increasing free cash flow
- Disciplined capital allocation to drive long-term shareholder value

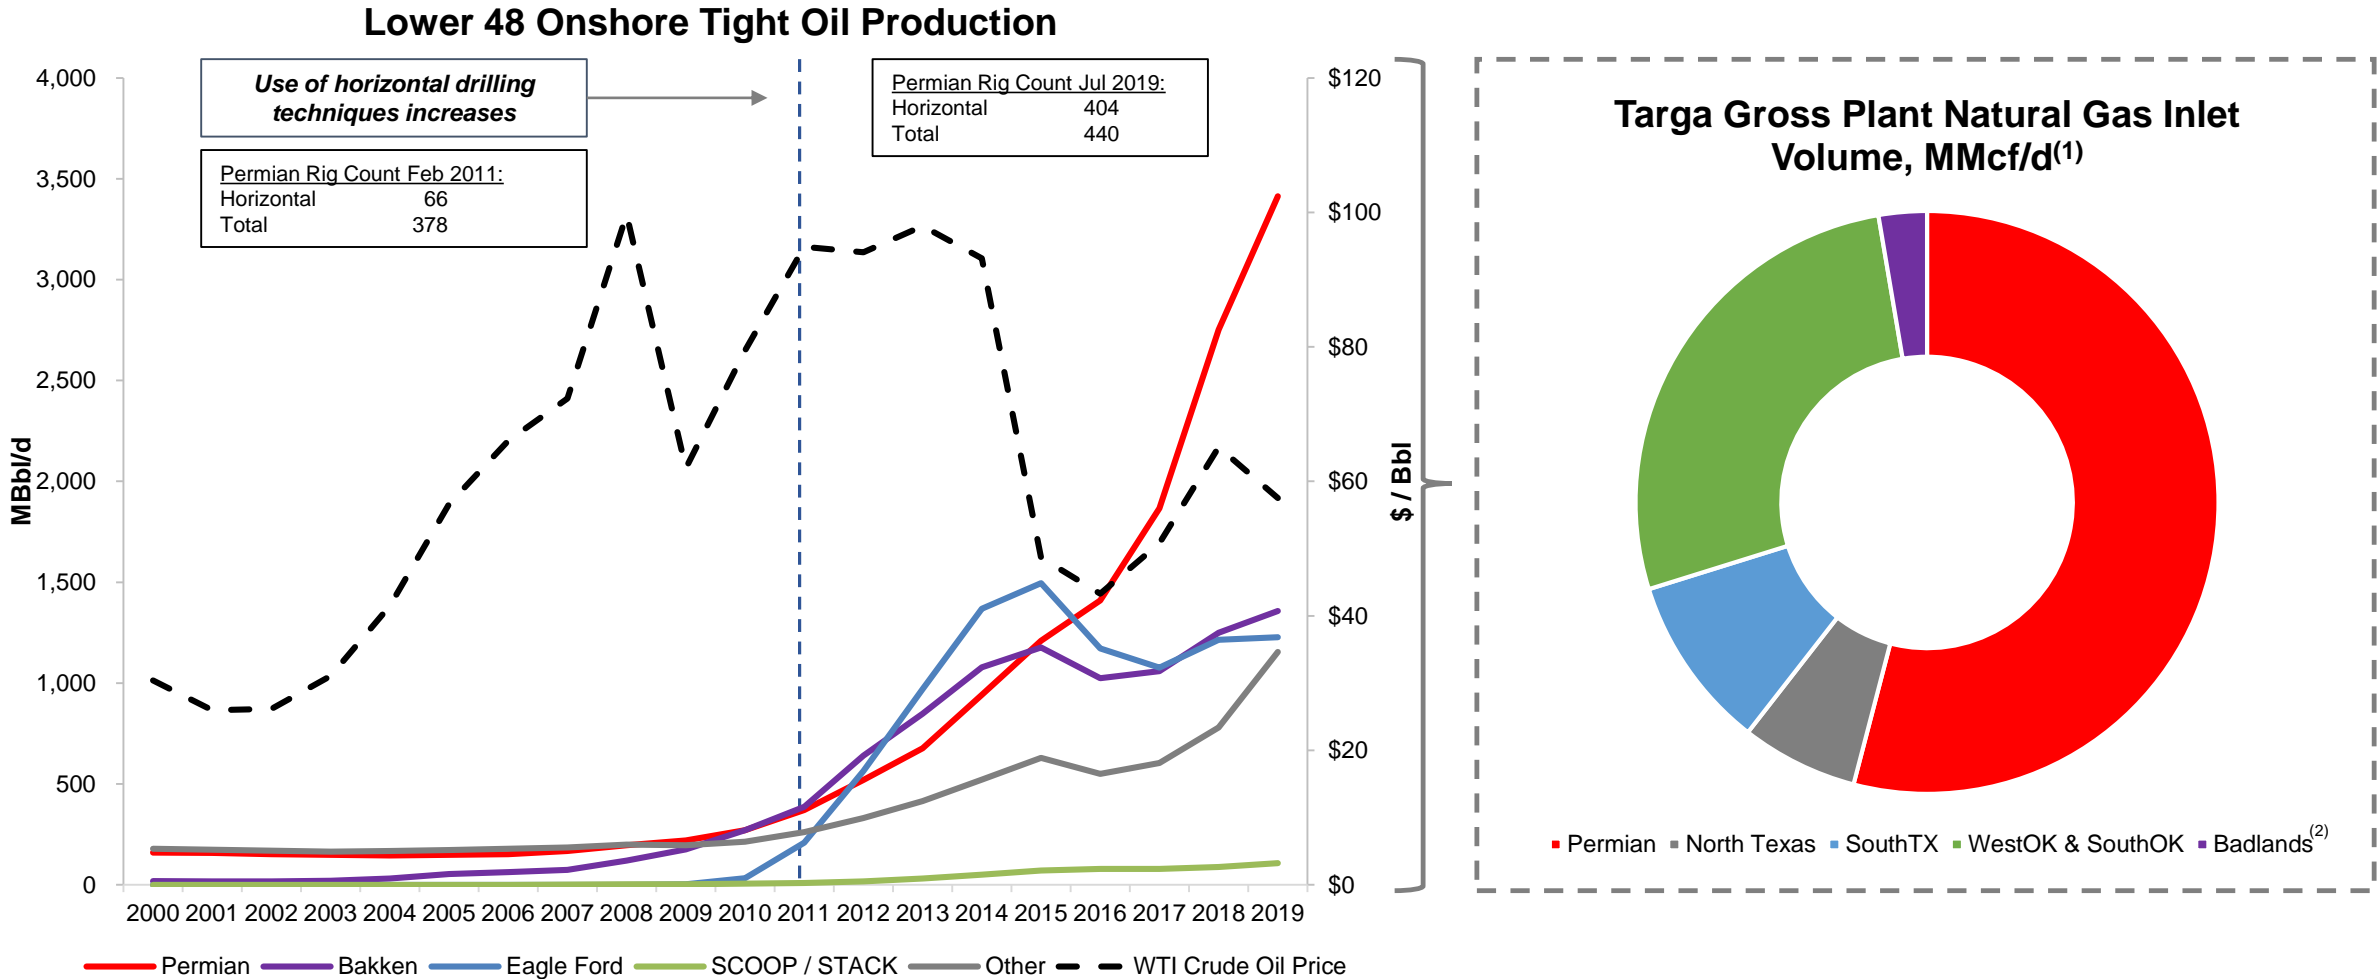

Integrated Infrastructure Platform

Permian Basin Leads Diverse Domestic Production Growth

Targa's asset footprint provides best-in-class, pure-play Permian integrated infrastructure

Source: EIA Short-Term Energy Outlook and Baker Hughes data as of July 2019;

WTI crude oil historical calendar year average price

(1) Average inlet volumes for six months ended 6/30/2019

(2) Targa Badlands also includes significant crude gathering infrastructure position (168 MBbl/d, average volume for six months ended 6/30/2019)

Targa's Premier Permian Infrastructure

Targa's Permian asset position across the Midland and Delaware Basins offers competitive and integrated G&P, NGL transportation and fractionation services to producer customers

Aggregator Of Permian Associated Gas Supply

- Permian natural gas processing expansions are driven by producer needs for incremental infrastructure, resulting in increasing NGL supply managed by Targa

Downstream Assets: Linking Supply to Demand

Growing Targa and third-party NGL supply

Grand Prix to connect growing NGL supply to NGL market hub and to Targa Downstream assets

Premier fractionation ownership position in Mont Belvieu

Superior connectivity to growing petrochemical complex

Most flexible LPG export facility along the US Gulf Coast; substantially contracted over the long-term

Mont Belvieu is unique - The US NGL market hub developed over decades of industry investment

- ✓ Y-grade (mixed) NGL supply coming from basins across the country
- ✓ Spec product NGL demand
- ✓ Ideal underground salt dome storage for NGLs
- ✓ An interconnected petrochemical complex that grew up around Mont Belvieu

Targa's infrastructure network is very well positioned and exceedingly difficult to replicate -

superior assets in Mont Belvieu, with connectivity to supply, fractionation, storage, terminaling infrastructure, and connectivity to demand (petrochemical complex and exports)

Grand Prix NGL Pipeline directs more volumes to Targa fractionation and export facilities -

improves linkage of supply to demand with advantages for Targa customers and Targa Downstream assets

NGL Growth Feeds Targa's Fractionation Assets

Significant NGLs from Targa Permian Plants

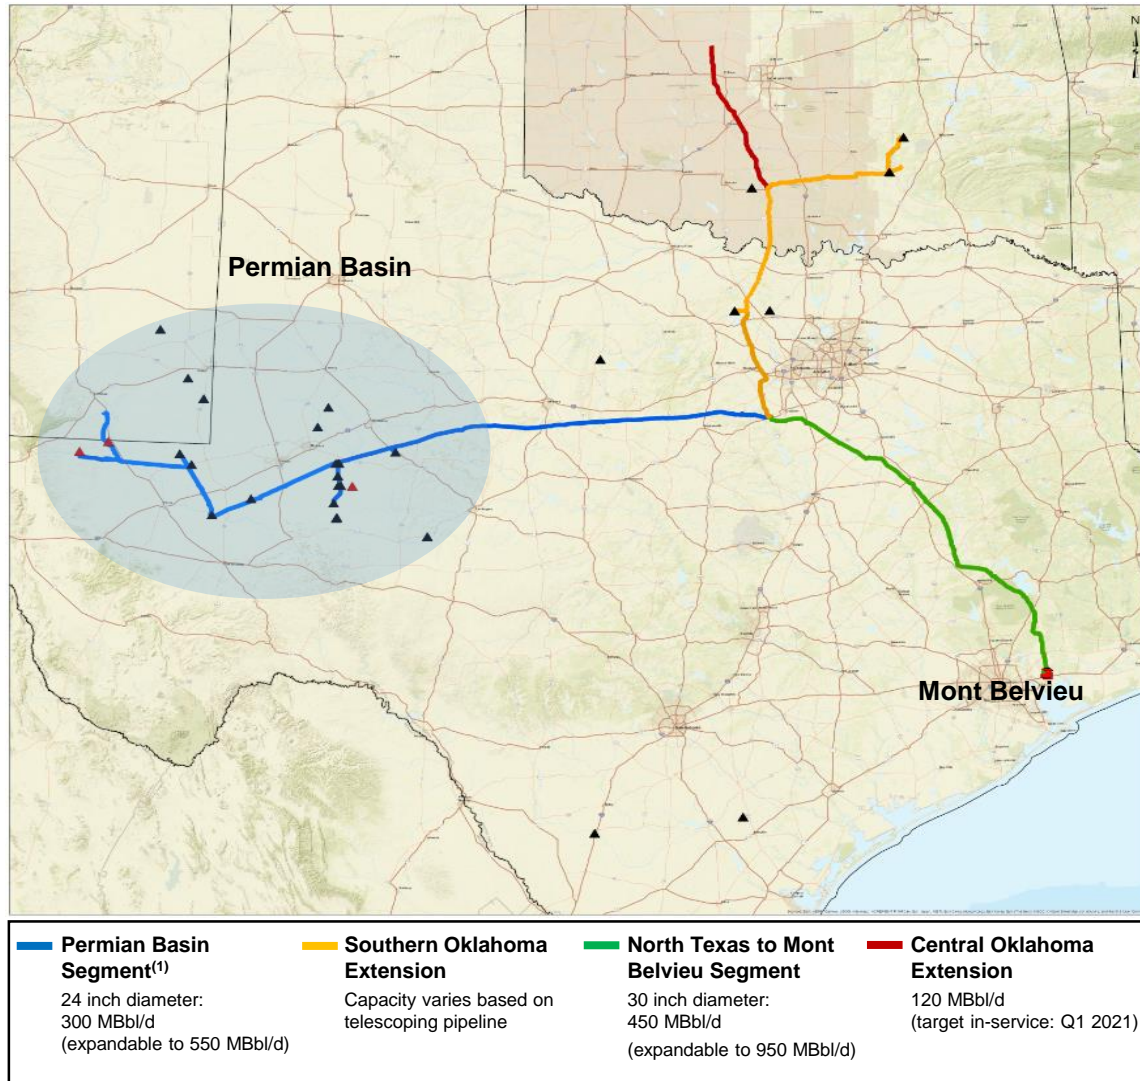

- Targa is currently one of the largest daily movers of NGLs in the Permian Basin
- Targa's Permian NGL production outlook is expected to continue to increase as a result of its 2.0 Bcf/d of incremental processing capacity expansions recently completed or underway
- Targa is able to direct the vast majority of its NGL production to its fractionation facilities in Mont Belvieu, which has led to significant growth in fractionation volumes over the same time frame

Robust Targa Fractionation Outlook

- 100 MBbl/d Train 6 began operations in Q2 2019
- Additional 220 MBbl/d from Trains 7 and 8 will begin operations in Q1 2020 and Q3 2020, respectively
- Continued production growth and continued commercial success further increase fractionation volume outlook
- Grand Prix NGL Pipeline will direct significant NGL volumes to Targa's fractionation complex

Targa's Grand Prix NGL Pipeline

- Online in Q3 2019
- Expect volumes to increase to ~200 MBbl/d in September 2019, with volumes further increasing through the balance of the year and into 2020

Strategic Rationale:

- Integrates Targa's G&P positions to its fractionation facilities in Mont Belvieu, LPG export facilities at Galena Park, and key domestic markets
- Targa can expand pipeline's capacity by adding pump stations as needed over time, with relatively low additional capital outlay
- In February 2019, Targa announced an extension of Grand Prix into the STACK play in Oklahoma that is supported by significant long-term transportation and fractionation volume dedications and commitments from Williams
- Will provide significant fee-based cash flow over the long-term

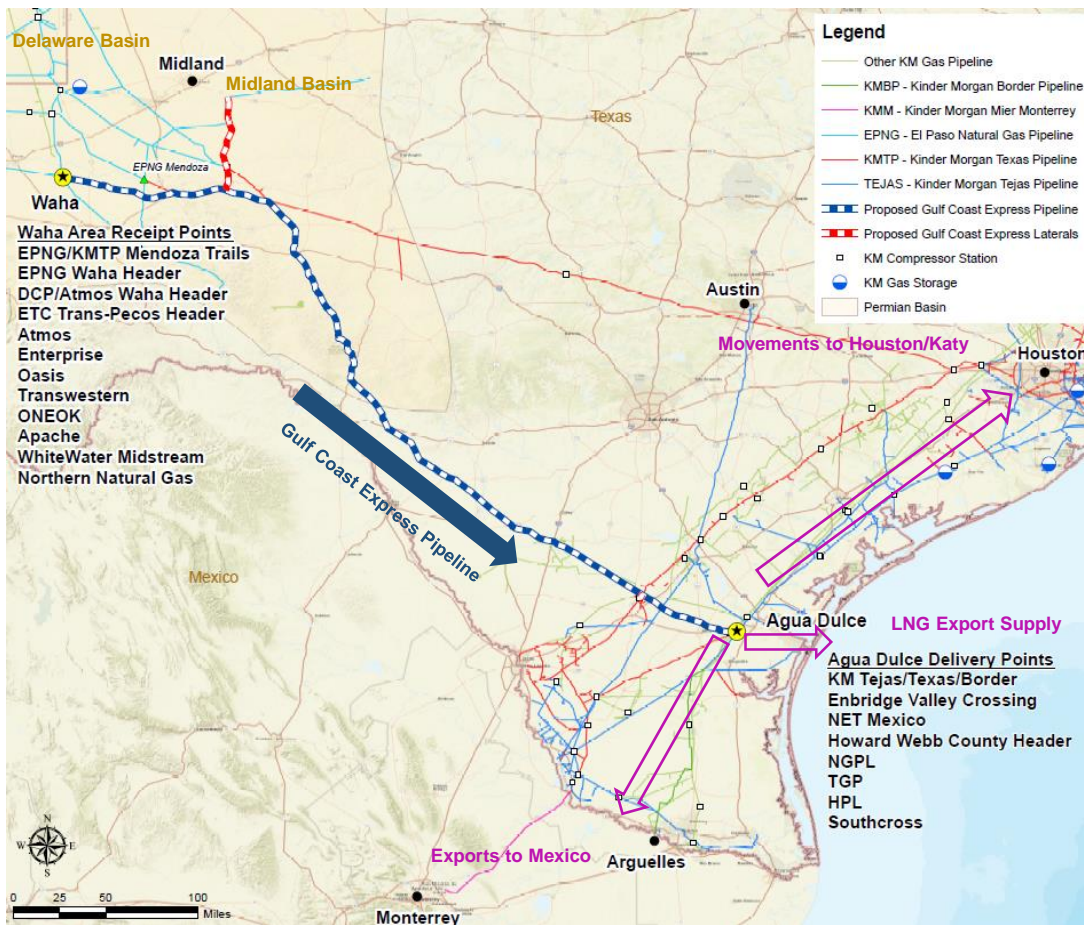

Project Ownership:

- 55% TRGP (operator) / 25% Blackstone / 20% DevCo JV⁽¹⁾

Grand Prix Volumes Expected to Continue to Increase:

- Continued production growth
- Continued commercial success
- Additional third-party commitments
- Increasing third-party volume commitments
- Expiration of Targa's obligations on other third-party NGL pipelines

Strategic Residue Takeaway – Gulf Coast Express (GCX)

Strategic Rationale:

- Secures reliable takeaway for increased natural gas production from the Permian Basin to premium markets along the Texas Gulf Coast
- Further enhances Targa's competitive capabilities to offer natural gas transportation takeaway options to its customers in the Delaware and Midland Basins
- Will provide significant fee-based cash flow over the long-term, leveraging Targa's position as one of the largest natural gas processors in the Permian Basin

Project Ownership:

- 35% KMI (operator) / 25% DCP / 25% DevCo JV⁽¹⁾ / 15% ALTM

Commercial Structure & Arrangement:

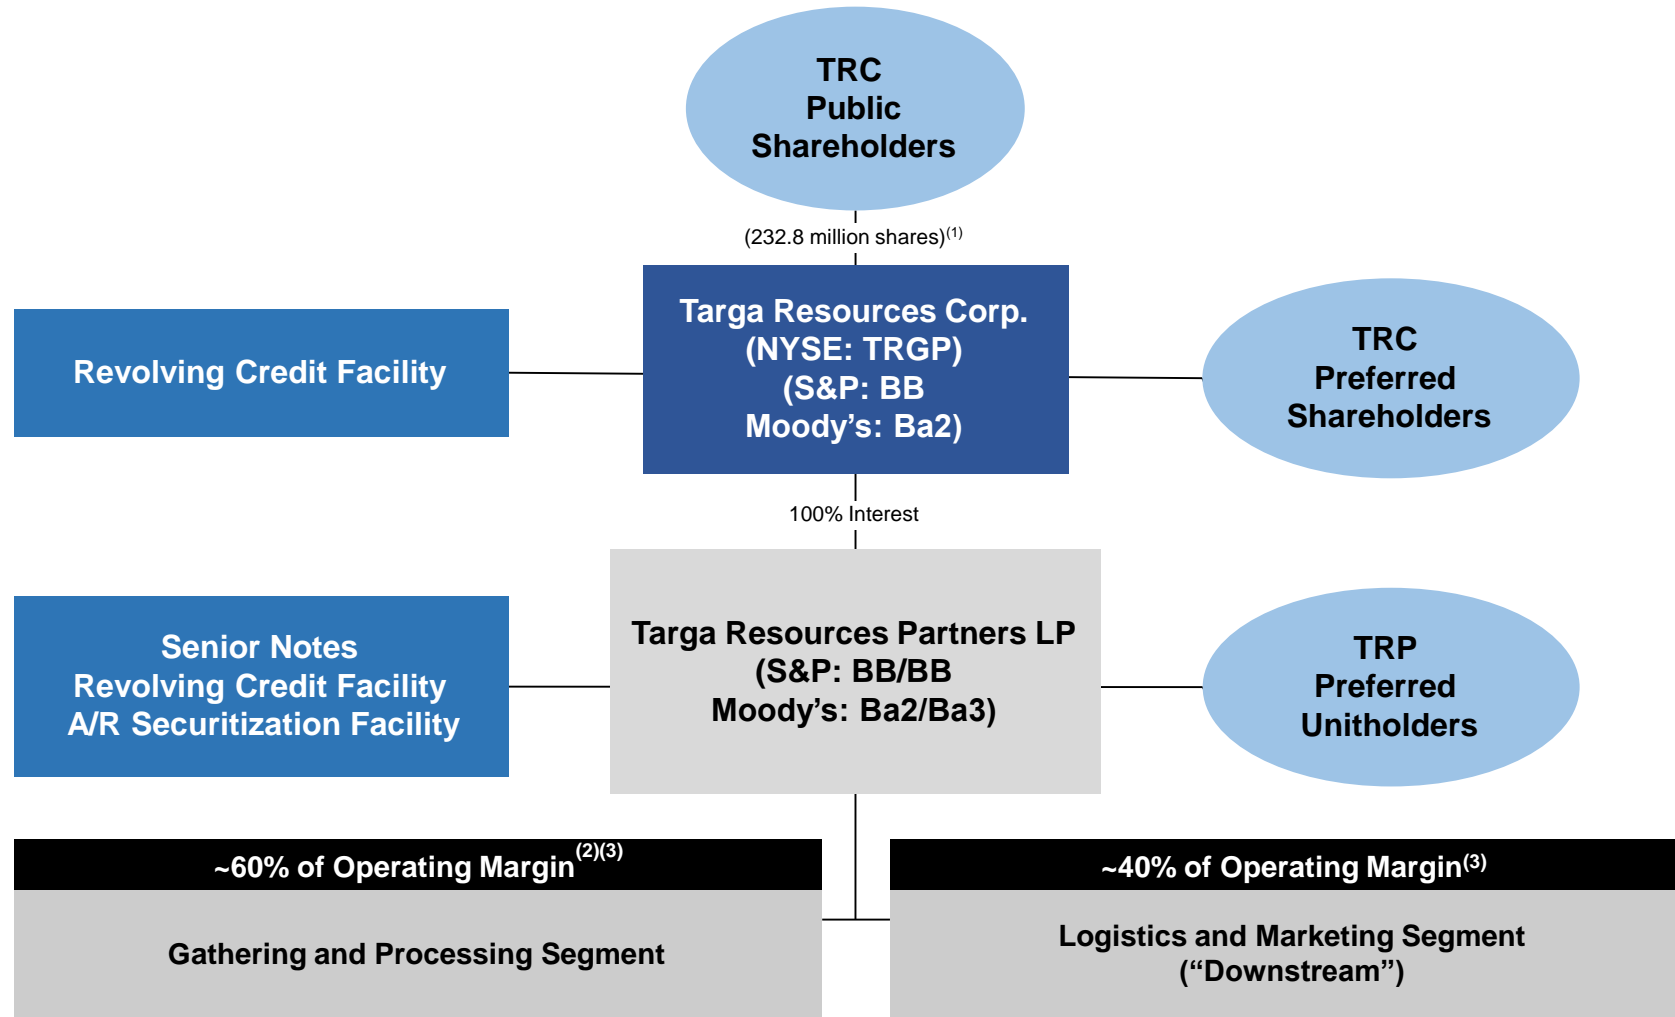

- Project's capacity is fully subscribed and committed under long-term agreements
- Fee-based margin
- Project scope includes lateral into the Midland Basin to serve gas processing facilities owned by Targa, as well as those owned jointly by Targa and Pioneer Natural Resources

- ▶ **In-Service Date: Late Q3 2019**
- ▶ **Project Cost: ~\$1.75 billion**
- ▶ **Capacity: 1.98 Bcf/d from Permian Basin to Agua Dulce**
- ▶ **Includes a 50-mile, 36-inch lateral from the Midland Basin**

(1) Based on forecasted 2019E operating margin
 (2) Marketing & Other includes Domestic NGL Marketing (Wholesale Propane, Refinery Services, Commercial Transportation), Gas Marketing & Petroleum Logistics
 (3) Fully consolidated operating margin
 (4) 2019E operating margin includes only current contract volumes
 (5) Balance of year (July through December 2019)
 (6) Weighted average hedge prices assumes put prices for collars
 (7) Based on current equity volumes
 (8) Targa's composite NGL barrel comprises 38% ethane, 34% propane, 5% isobutene, 13% normal butane, and 10% natural gasoline

Badlands Minority Interest Sale - Transaction Overview

- Targa closed on the sale of a 45% interest in Badlands⁽¹⁾ to funds managed by GSO Capital Partners and Blackstone Tactical Opportunities (collectively “Blackstone”) for \$1.6 billion, early second quarter of 2019
 - ▶ Targa will continue to be the operator and will hold majority governance rights in Badlands; future growth capital to be funded on a pro rata basis
 - ▶ Badlands will pay a minimum quarterly distribution to Blackstone and to Targa based on their initial investments, and Blackstone’s capital contributions will have a liquidation preference upon a sale of Badlands

- The Badlands assets and operations are located in the Bakken and Three Forks Shale plays of the Williston Basin and include approximately:
 - ▶ 480 miles of crude oil gathering pipelines and 125 MBbl of operational crude oil storage
 - ▶ ~260 miles of natural gas gathering pipelines and the Little Missouri natural gas processing plant with a current gross processing capacity of approximately 90 MMcf/d
 - ▶ Badlands owns a 50% interest in the 200 MMcf/d Little Missouri 4 (“LM4”) Plant

Financial Position and Leverage

- Protecting the balance sheet while maintaining flexibility remain key objectives
- Strong available liquidity position of ~\$2.4 billion

Leverage and Liquidity

Senior Note Maturities

(1) Includes borrowing capacity under the TRC revolver (\$235 million as of 6/30/2019) available as a source of liquidity to TRP

Longer-Term Outlook (*Published November 2018*)

High Visibility to Rapidly Increasing EBITDA

- Given the strength of fundamentals across Targa's areas of operation and a portfolio of attractive capital projects currently underway, Targa estimates significant year-over-year EBITDA growth
 - Growth capex generates attractive average 5-7x EBITDA multiples over time at the project level
 - Increasing free cash flow over time given growth capex estimated to decrease significantly after 2019
 - Assumes no LPG export business spot margin over the forecast period or growth wedges from commercial opportunities not yet executed

Announced Projects Drive Significant Accretive Growth⁽¹⁾⁽²⁾⁽³⁾

Additional EBITDA Growth Opportunities Post 2021E

- + Acquisition of DevCo JV interests
- + Additional G&P expansions
- + Additional fractionation expansions
- + Additional expansion of Grand Prix
- + Additional expansion of LPG export facilities
- + New commercial agreements across G&P and Downstream

Note: The above forecast has not been updated pro forma for the Badlands minority interest sale, Grand Prix extension into central Oklahoma and other activity

Sustainability and ESG

Safety, Environmental, Social and Governance

- As an energy infrastructure company focused on the transportation and storage of energy products, our operations are essential to the delivery of energy efficiently, safely, and reliably across the United States. At Targa Resources, we invest billions of dollars each year to build new and expanded assets to deliver energy products that sustain and enhance the quality of life of our citizenry.
 - We strive to conduct our business safely and with integrity, creating lasting benefits to our stakeholders, including our investors, lenders, customers, employees, business partners, regulators and the communities in which we live and work.
- ✓ **Safety and operational excellence**
 - ✓ **Environmental stewardship**
 - ✓ **Strong alignment with shareholders**

Gathering & Processing Segment

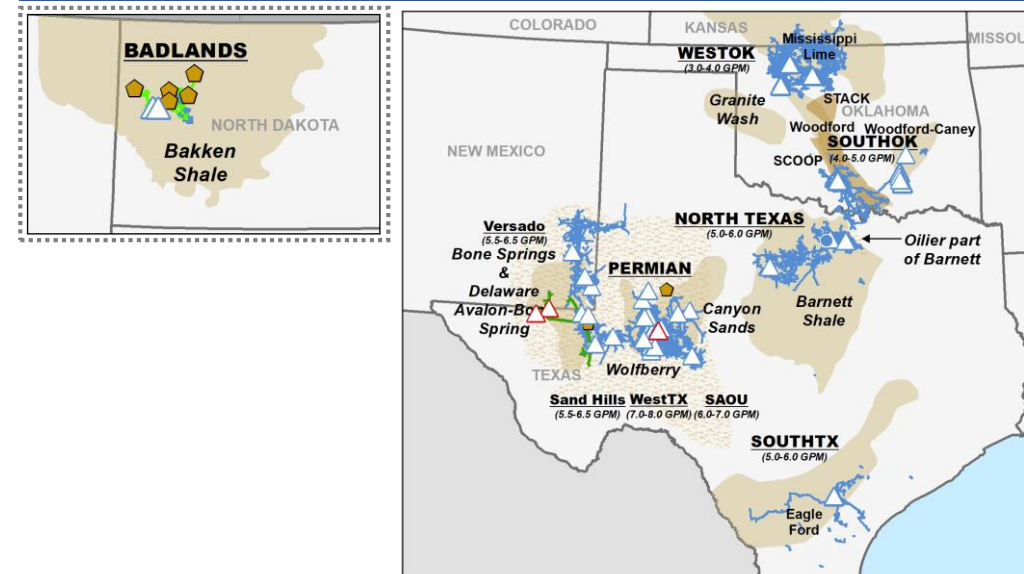

Extensive Field Gathering and Processing Position

Summary

- ~6.3 Bcf/d of gross processing capacity⁽¹⁾⁽²⁾⁽³⁾
- Significant acreage dedications in the Permian Basin, Bakken, SCOOP, STACK and Eagle Ford
- G&P capacity additions underway:
 - 750 MMcf/d of additional processing capacity additions underway in the Permian Basin
- Mix of POP and fee-based contracts

Footprint

Volumes (Pro Forma Targa All Years)

	Est. Gross Processing Capacity (MMcf/d)	Miles of Pipeline ⁽³⁾

Note: WestTX system in Permian Midland is owned 72.8% Targa; 27.2% Pioneer (PXD)

Permian – Midland Basin

Summary

- **Interconnected WestTX and SAOU systems located across the core of the Midland Basin**
 - ▶ JV between Targa (72.8% ownership and operator) and PXD (27.2% ownership) in WestTX
- **Operate natural gas gathering and processing and crude gathering assets**
 - ▶ Traditionally POP contracts, with added fees and fee-based services for compression, treating, etc.
 - ▶ Contracts acquired as part of Permian acquisition in Q1 2017 are fee-based

Permian – Delaware Basin

Summary

- Interconnected Versado and Sand Hills capturing growing production from increasingly active Delaware Basin (also connected to Permian - Midland)
- Operate natural gas gathering and processing and crude gathering assets
 - Primarily fee-based, along with POP contracts

Long-term fee-based agreements with Large Investment Grade Energy Company

- In early 2018, Targa entered into long-term fee-based agreements with an investment grade energy company for G&P services in the Delaware Basin and for downstream transportation, fractionation and other related services
- The agreements with Targa are underpinned by the customer's dedication of significant acreage within a large well-defined area in the Delaware Basin
- Targa will also provide transportation services on Grand Prix and fractionation services at its Mont Belvieu complex for a majority of the NGLs from the Falcon and Peregrine Plants

^(a) Expected to be completed in Q4 2019

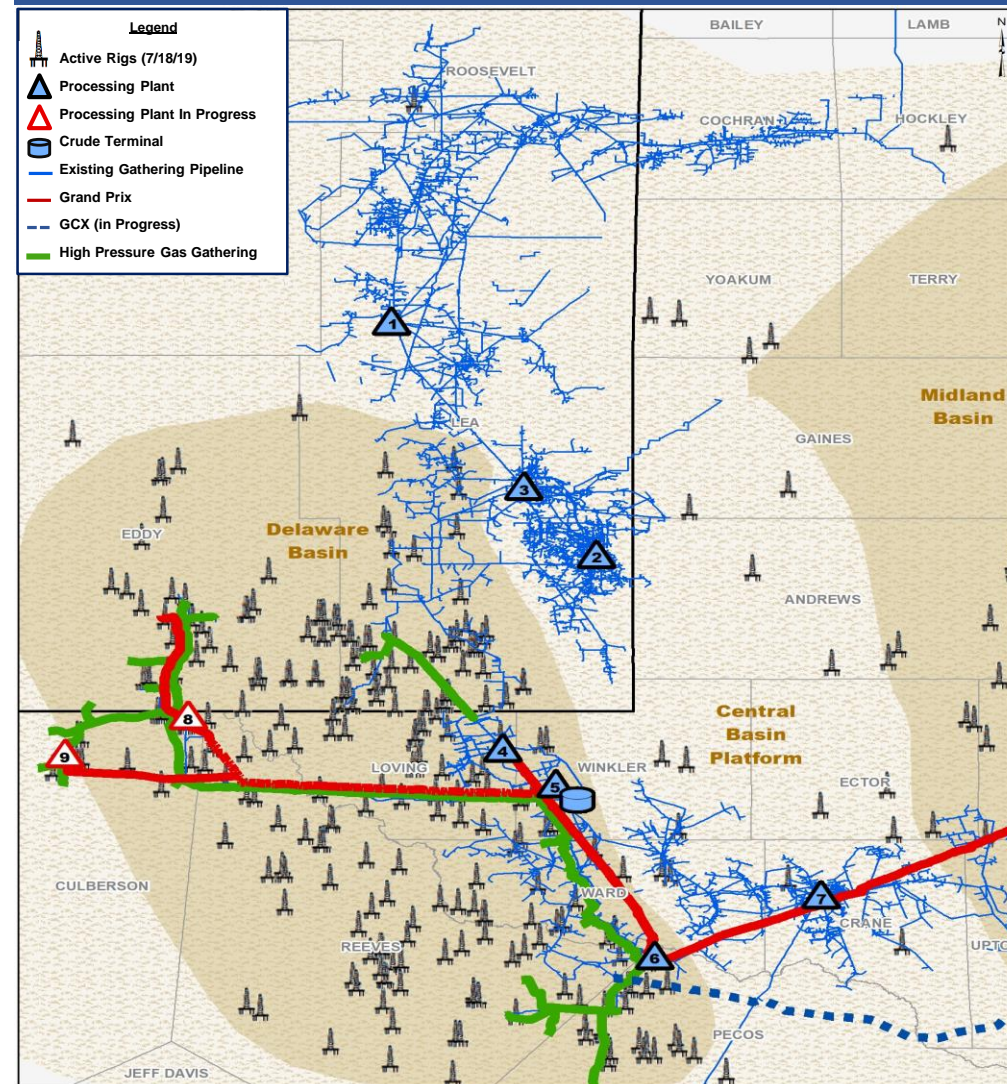

^(b) Expected to be completed in Q2 2020

^(c) Total estimated gross capacity by Q2 2020

^(d) Crude oil gathered includes Permian - Midland and Permian - Delaware

^(e) Total gas and crude oil pipeline mileage

Asset Map and Rig Activity⁽¹⁾

Strategic Position in the Core of the Bakken

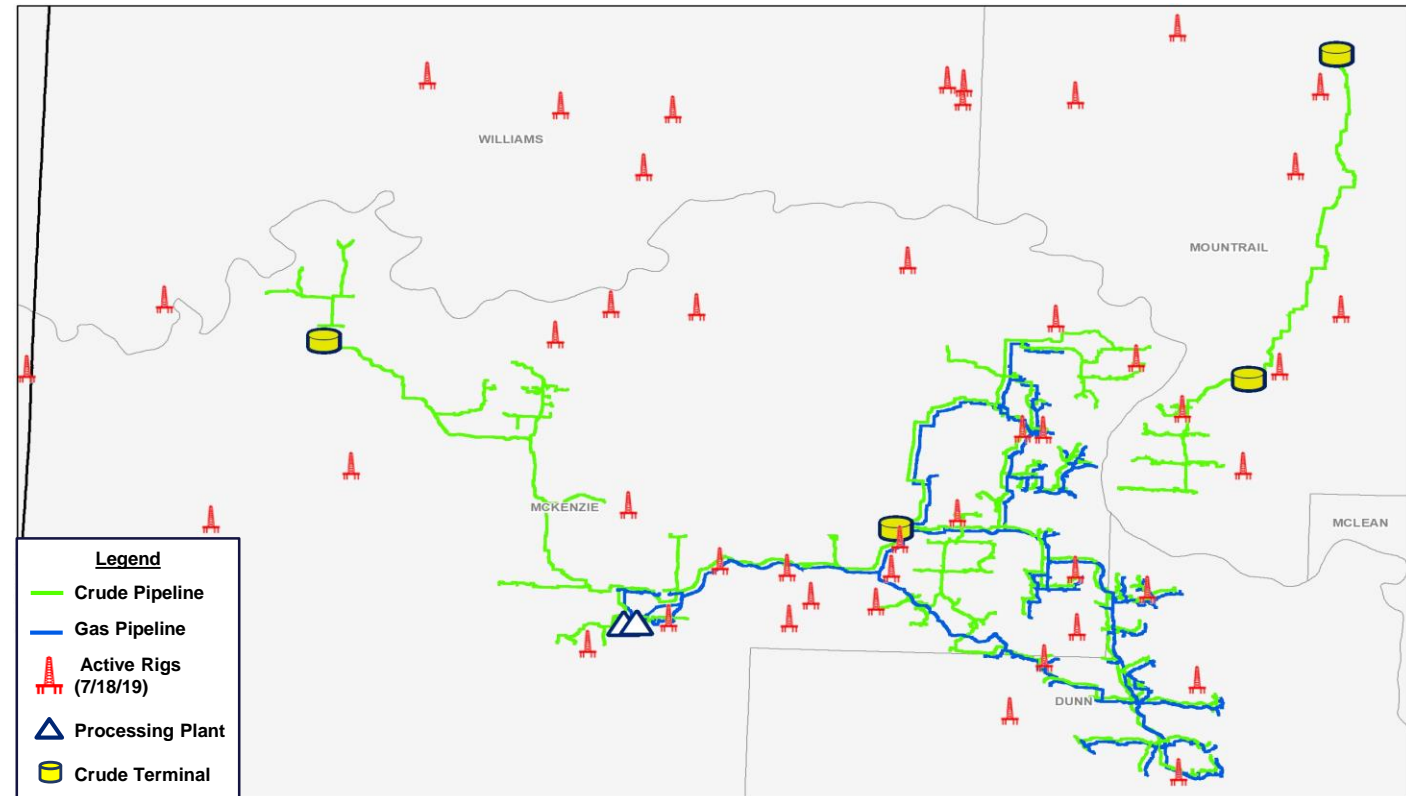

Summary

- 460 miles of crude gathering pipelines; 200 miles of natural gas gathering pipelines
- 290 MMcf/d of natural gas processing capacity
- Fee-based contracts
- Large acreage dedications and areas of mutual interest from multiple producers
- Current crude oil delivery points include DAPL, Four Bears, Tesoro, Tesoro BakkenLink, Hilands, and Enbridge
- Badlands, LLC owned 55% / 45% by Targa (operator) and Blackstone GSO, respectively

Expansions Recently Completed

- JV with Hess Midstream, 200 MMcf/d Little Missouri 4 Plant (LM4)
- Transport agreement for NGLs from LM4 Plant to be delivered to Targa Mont Belvieu fractionation complex

Little Missouri IV	50.0%	McKenzie, ND	200			
Badlands Total^(a)			290	92	167	750

^(a) Total gas and crude oil pipeline mileage

WestOK and SouthOK

Summary

- WestOK consists of 458 MMcf/d of processing capacity positioned to benefit from the continued northwest movement of upstream activity targeting the STACK
 - Majority of contracts are hybrid POP plus fees
- SouthOK consists of 710 MMcf/d of gross processing capacity well positioned to benefit from increasing SCOOP and Arkoma Woodford activity
 - Predominantly fee-based contracts
 - Centrahoma JV with MPLX includes the 150 MMcf/d Hickory Hills Plant
 - Majority of SouthOK NGLs dedicated to Grand Prix

Facility	% Owned	Location (County)	Est. Gross Processing Capacity (MMcf/d)	Q2 2019 Gross Plant Inlet (MMcf/d)	Q2 2019 Gross NGL Production (MMbbl/d)	Miles of Pipeline

Asset Map and Rig Activity⁽¹⁾ - SouthOK

North Texas and SouthTX

Summary

- North Texas consists of 478 MMcf/d processing capacity in the Barnett Shale and Marble Falls play
 - Primarily POP contracts with fee-based components
 - Connected to Grand Prix
- SouthTX consists of multi-county gathering system with interconnected plants spanning the Eagle Ford
 - Growth driven by JV with Sanchez Midstream Partners LP (NYSE:SNMP) and drilling activity from Sanchez Energy Corp. on dedicated acreage
 - In May 2018, expanded the JV to include new dedication of over 315,000 gross Comanche acres in the Western Eagle Ford; total dedicated acres over 420,000
 - JV consists of fee-based contracts supported by 15 year acreage dedication and 5 year 125 MMcf/d MVC

Facility	% Owned	Location (County)	Est. Gross Processing Capacity (MMcf/d)	Q2 2019 Gross Plant Inlet (MMcf/d)	Q2 2019 Gross NGL Production (MBbl/d)	Miles of Pipeline

Asset Map and Rig Activity⁽¹⁾ - SouthTX

Coastal G&P Footprint

Summary

- Asset position represents a competitively advantaged straddle option on Gulf of Mexico activity over time
- LOU (Louisiana Operating Unit)
 - 440 MMcf/d of gas processing (180 MMcf/d Gillis plant, 80 MMcf/d Acadia plant and 180 MMcf/d Big Lake plant)
 - Interconnected to Lake Charles Fractionator (LCF)
- Coastal Straddles (including VESCO)
 - Positioned on mainline gas pipelines processing volumes of gas collected from offshore
- Coastal G&P inlet volumes and NGL production have been declining, but NGL production decreases have been partially offset by some higher GPM gas and by processing volumes at more efficient plants
- Primarily hybrid contracts (POL with fee floors)

	Current Gross Processing Capacity (MMcf/d)	Q2 2019 NGL Production (MBbl/d)
LOU	440	
Vesco	750	
Other Coastal Straddles	3,255	
Total	4,445	47

Footprint

Volumes

Downstream Segment

Downstream Capabilities

Overview

- The Logistics and Marketing segment represents approximately ~40% of total operating margin⁽¹⁾
- Predominantly fixed fee-based businesses, with significant “take-or-pay”
- Continue to pursue attractive downstream infrastructure growth opportunities
- Field G&P growth and increased ethane recovery will bring more volumes downstream

Downstream Businesses

NGL Transportation & Services

(~60% of Downstream)⁽¹⁾

- Grand Prix NGL pipeline integrating Targa’s G&P positions in the Permian Basin, North Texas and SouthOK to Mont Belvieu
- Strong fractionation position in Mont Belvieu and Lake Charles

LPG Exports (~20% of Downstream)⁽¹⁾

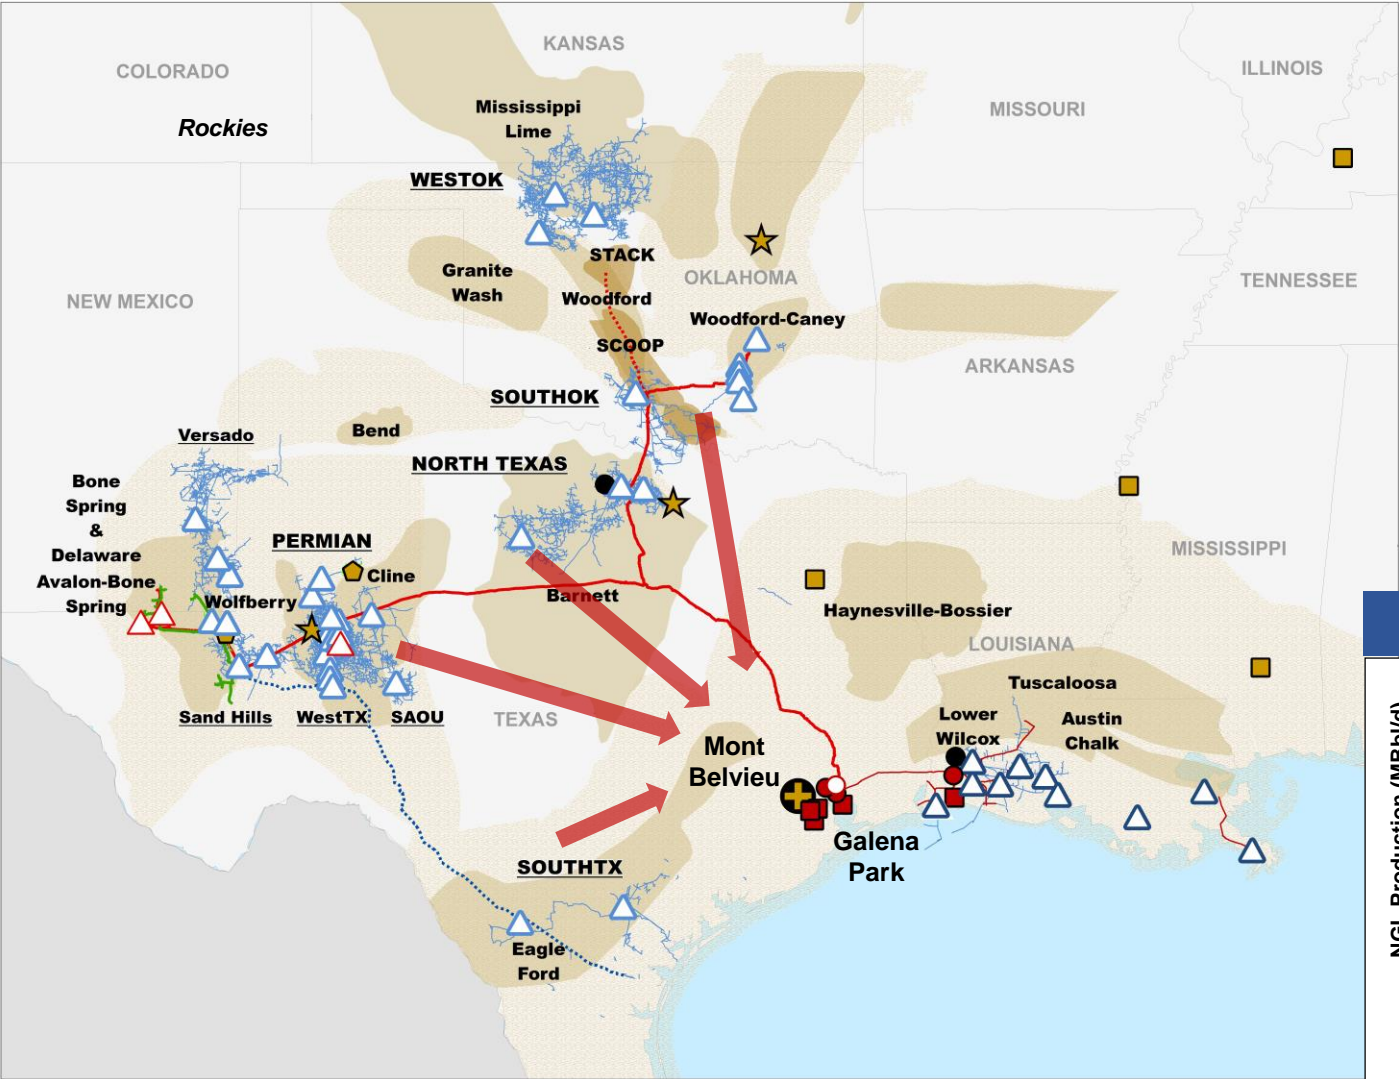

- Approximately 7 MMBbl/month of LPG Export capacity; expansion underway
- Fixed loading fees with “take-or-pay” commitments; market to end users and international trading houses

Storage, Terminals, Marketing and Other (~20% of Downstream)⁽¹⁾

- **Storage and Terminals**
 - ▶ Underground storage assets and connectivity provides a locational advantage
- **NGL and Natural Gas Marketing**
 - ▶ Manage physical distribution of mixed NGLs and specification products using owned and third party facilities
- **Domestic NGL Marketing and Distribution**
 - ▶ Contractual agreements with major refiners to market NGLs
 - ▶ Sell propane to multi-state, independent retailers and industrial accounts; inventory sold at index plus
- **Logistics and Transportation**
 - ▶ All fee-based; 585 railcars, 136 transport tractors, 2 NGL ocean-going barges
- **Petroleum Logistics**
 - ▶ Gulf Coast footprint

G&P Volume Drives NGL Flows to Mont Belvieu

- Growing field NGL production increases NGL flows to Targa's expanding Mont Belvieu and Galena Park presence
- Grand Prix brings NGLs from the Permian Basin, southern Oklahoma and North Texas and enhances Targa's vertical integration
- Petrochemical investments, fractionation and export services will continue to clear additional domestic supply
- Targa's Mont Belvieu, Galena Park and Grand Prix businesses very well positioned

(1) Gross NGL production, pro forma Targa for all years

Growing NGL Footprint Feeds Grand Prix

Increasing NGL production directs increasing volumes to Grand Prix and Targa's Downstream complex in Mont Belvieu

Existing Plants Total Gross NGL Production (MBbl/d) ⁽¹⁾	2019	Availability for Grand Prix
Permian	257	Varies ⁽²⁾
SouthOK / North Texas	90	Near Term / Immediate
Total Gross NGL Production from Existing Plants	347	

Additional Production from New Plants	Capacity MMcf/d	Theoretical NGLs ⁽³⁾ MBbl/d	Availability for Grand Prix
Permian Midland			
Joyce	200	25 - 30	Medium Term
Johnson	200	25 - 30	Near Term
Hopson	250	30 - 35	Immediate
Pembrook	250	30 - 35	Immediate

Wildcat	250	30 - 35	Immediate
Falcon ⁽⁴⁾	250	30 - 35	Immediate
Peregrine ⁽⁴⁾	250	30 - 35	Immediate
Total Potential Gross NGLs from New Plants	1,960	235 - 280	

Additional NGL Volumes from Third Parties, Plants in Progress, Etc.

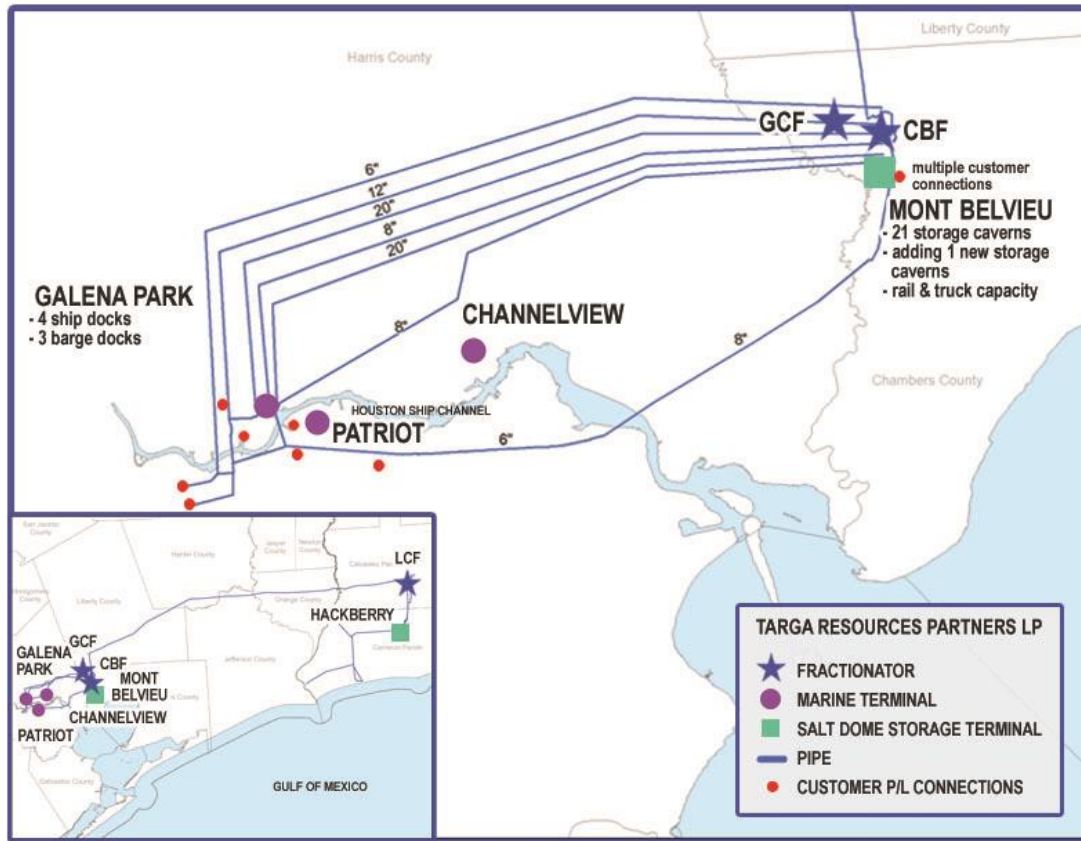

3rd Party Existing + New Plants in Progress	+
Including:	
Valiant Midstream	
EagleClaw Midstream	
Other Non-Public Third Party Commitments	
New Commercial Success	+
Existing Transport Commitments	-
Existing Contractual Limitations	-
Total Potential Volumes for Transport & Fractionation	500+

- Targa manages significant NGLs from its existing plants in the Permian, SouthOK and North Texas
- Some of the volumes will be available for immediate shipment on Grand Prix, while other volumes are subject to existing obligations on third party pipelines that will expire over time and other contractual limitations
- Given Targa's announced processing expansions underway in the Permian, and assuming an inlet GPM of 5 to 6, by 2020 Targa's new Permian plants will be capable of producing in excess of an incremental 230+ MBbl/d of NGLs

- Targa's gross NGL production from its plants is poised to increase to over 500 MBbl/d by the end of 2020
- Targa will have the ability to direct a meaningful portion of these NGL volumes to Grand Prix
- Additional third party commitments increases volume outlook
- As Targa's existing obligations on other third party pipelines expire, these NGL volumes will transition to Grand Prix

Logistics Assets Exceedingly Difficult to Duplicate

Fractionators		Gross Capacity (MMbbl/d)	Net Capacity (MMbbl/d) ⁽¹⁾
Mont Belvieu ⁽¹⁾	CBF - Trains 1-3	253	223
	CBF - Backend Capacity	40	35
	CBF - Train 4	100	88
	CBF - Train 5	100	88
	Train 6	100	100
	Train 7 ⁽²⁾	110	110
	Train 8 ⁽²⁾	110	110
	GCF - Mont Belvieu	125	49
Total - Mont Belvieu		938	802
LCF - Lake Charles		55	55
Total		993	857

Potential Fractionation Expansions

Permit received for Train 9 incremental fractionation

Other Assets

Mont Belvieu

- 35 MMbbl/d Low Sulfur/Benzene Treating Natural Gasoline Unit
- 23 Underground Storage Wells
- Pipeline Connectivity to Petchems/Refineries/LCF/etc.
- 7 Pipelines Connecting Mont Belvieu to Galena Park
- Rail and Truck Loading/Unloading Capabilities

Other Gulf Coast Logistics Assets

- Channelview Terminal (Harris County, TX)
- Patriot Terminal (Harris County, TX)
- Hackberry Underground Storage (Cameron Parish, LA)

Galena Park Marine Terminal		
	Products	MMBbl/Month
Export Capacity	LEP / HD5 / NC4	~7.0
Other Assets		

700 MMbbls in Above Ground Storage Tanks
4 Ship Docks

(1) Based on Targa's effective ownership interest

(2) Expansion underway to increase fractionation capacity by 220 MMbbl/d in Mont Belvieu; Train 7 expected to be complete late Q1 2020 and Train 8 expected to be complete late Q3 2020

Targa's LPG Export Business

LPG Exports by Destination⁽¹⁾

■ Latin America / South America ■ Caribbean ■ Rest of the World

Propane and Butane Exports⁽¹⁾

■ Propane ■ Butane

Galena Park LPG Export Volumes

- **Fee based business (charge fee for vessel loading)**
- **Targa advantaged versus some potential competitors given support infrastructure**
 - ▶ Fractionation, storage, supply/market interconnectivity, refrigeration, de-ethanizers, etc.
- **Differentiated facility versus other LPG export facilities due to operational flexibility on vessel size and cargo composition**
- **Effective operational capacity of ~7 MMBbl/month, prior to new butane pipeline / dock enhancements**
- **Substantially contracted over the long-term at attractive rates**
- **Low-cost expansion underway to substantially increase LPG export capacity to ~11 – 15 million barrels per month⁽²⁾ in Q3 2020**

Reconciliations

Non-GAAP Measures Reconciliation

This presentation includes the non-GAAP financial measures of Adjusted EBITDA. The presentation provides a reconciliation of this non-GAAP financial measures to its most directly comparable financial measure calculated and presented in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Our non-GAAP financial measures should not be considered as alternatives to GAAP measures such as net income, operating income, net cash flows provided by operating activities or any other GAAP measure of liquidity or financial performance.

Adjusted EBITDA – The Company defines Adjusted EBITDA as net income (loss) available to TRC before interest, income taxes, depreciation and amortization, and other items that we believe should be adjusted consistent with our core operating performance. The adjusting items are detailed in the Adjusted EBITDA reconciliation table and its footnotes. Adjusted EBITDA is used as a supplemental financial measure by us and by external users of our financial statements such as investors, commercial banks and others. The economic substance behind our use of Adjusted EBITDA is to measure the ability of our assets to generate cash sufficient to pay interest costs, support our indebtedness and pay dividends to our investors.

Adjusted EBITDA is a non-GAAP financial measure. The GAAP measure most directly comparable to Adjusted EBITDA is net income (loss) attributable to TRC. Adjusted EBITDA should not be considered as an alternative to GAAP net income. Adjusted EBITDA has important limitations as an analytical tool. Investors should not consider Adjusted EBITDA in isolation or as a substitute for analysis of our results as reported under GAAP. Because Adjusted EBITDA excludes some, but not all, items that affect net income and is defined differently by different companies in our industry, our definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies, thereby diminishing its utility.

Management compensates for the limitations of Adjusted EBITDA as an analytical tool by reviewing the comparable GAAP measures, understanding the differences between the measures and incorporating these insights into its decision-making processes.

Non-GAAP Reconciliations - Estimated 2019 Adjusted EBITDA⁽¹⁾

The following table presents a reconciliation of estimated Adjusted EBITDA for the periods shown for TRC:

Reconciliation of estimated net income attributable to TRC to Adjusted EBITDA	Year Ended December 31,	
	2019	
	(In millions)	
Net income attributable to TRC	\$	44.0
Income attributable to TRP preferred limited partners		11.3
Interest expense, net		330.0
Income tax expense (benefit)		0.0
Depreciation and amortization expense		925.0
(Earnings) loss from unconsolidated affiliates		(30.0)
Distributions from unconsolidated affiliates and preferred partner interests, net		50.0
Compensation on equity grants		60.0
Noncontrolling interest adjustment ⁽²⁾		(40.3)
TRC Estimated Adjusted EBITDA	\$	1,350.0

Longer-Term Outlook (*Published November 2018*)

Non-GAAP Reconciliations - Estimated 2020 and 2021 Adjusted EBITDA

The following table presents a reconciliation of estimated Adjusted EBITDA for the periods shown for TRC:

Reconciliation of estimated net income attributable to TRC to Adjusted EBITDA	2020	2021
	(In millions)	
Net income attributable to TRC	\$ 634.0	\$ 859.0
Income attributable to TRP preferred limited partners	11.3	11.3
Interest expense, net	425.0	450.0
Income tax expense (benefit)	0.0	0.0
Depreciation and amortization expense	950.0	975.0
(Earnings) loss from unconsolidated affiliates	(90.0)	(90.0)
Distributions from unconsolidated affiliates and preferred partner interests, net	85.0	85.0
Compensation on TRP equity grants	60.0	60.0
Noncontrolling interest adjustment	(50.3)	(50.3)
TRC Estimated Adjusted EBITDA	\$ 2,025.0	\$ 2,300.0
